The following headline in the [LA Times](#) today reminds us of GLOBAL corruption on an unprecedented scale, it reads: "*U.N. report catalogs North Korean 'crimes against humanity.'*" North Korea is an oppressive totalitarian State and deserves to be cited in this way; HOWEVER, the USA remains the WORLD'S most heinous, leading civilian killing, drone assassinating, regime interfering, invasive and occupying, resource thieving TERRORIST nation and yet it is strangely excluded from Hague war crimes prosecutions and UN investigations for crimes against humanity. This situation has persisted over the past 15 years and sends a very clear message to the world that the Hague Courts and the UN are clearly partial and thoroughly corrupt institutions.

Former Justice, Michael Kirby

If the world allows the criminal USA to run roughshod over other nations with the assistance of so-called independent international bodies, then Justice, fair play, Liberty and FREEDOM are lost to civilisation.

The current chairman of the UN Commission is a very well known Australian homosexual and former judge of the High Court, Michael Kirby. It is particularly painful to see Australia involved in OVERT BIAS and CORRUPTION in this way. Kirby, during his former legal career in Oz once went in to bat for the underdog, but O, how principle bends and twists when status and money are involved.

Well, Mr Michael Kirby, you were once a man to be admired now you are just another bought and owned faggot like Barack Obama. You despicable piece of human waste, Kirby, how could you sellout to the most heinous criminal powers in existence so bloody easily?

To be expected, your presence in Australia will not be as it was!

Need I state that INTEGRITY and JUSTICE demand a full investigation into ONGOING U.S. war and other crimes against humanity? Mr Kirby, you were once fully qualified to oversee such an inquiry but it is now clear that you have sold your arse literally and metaphorically to the devil. Moreover, it is interesting to note how the evil powers use compromised and aberrant personalities to do their dirty work today.
