

Australian Censors Ban Award Winning Film

by stacy Thursday, Feb 27 2014, 10:46pm

international / prose / post

You had better believe it, 'anal' conservatives are back in government and Oz culture has consequently taken a giant REGRESSIVE leap backward. The Swedish film, *Children's Island*, is over thirty years old and depicts, in thematic context, an 11yo pubescent boy masturbating, of course, with an erect penis!

Well, guess what censors, pubescent girls and boys actually masturbate so lets run and hide from REALITY, shall we? Would someone take the Jesuit trained Oz PM, Tony Abbott, and his starch-collared censors outside and shoot the regressive, SICK bastards. The sheer gall of a bunch of conservative, anal, authoritarian sickos adjudicating what other ADULTS can or can't view or read is the height of paternalism, myopism, disrespect, arrogance and indeed perversity and pathology!

The film won Sweden's most prestigious film award in 1980 and was submitted by Sweden for the 54th Academy Awards but Oz's new conservative government is living in 1954 not 2014!

The next time you beer-swilling, wine-imbibing Aussie morons vote try and use what few brains cells remain in your vacuous heads. Aside from the above cultural catastrophe, Abbott has been instructed by the plutocrats he serves to dismantle and sell everything that was once the pride of Australian industry and sovereignty, nearly all our traditional local brands have been sold and now critical industries are being offered to foreign interests at garage sale prices. Local jobs, what's that?

What it all means for those incapable of adding 2+2 is that Aussies will become dependent slaves to foreign interests in their OWN LAND -- 'howzat,' you mindless imbeciles?

Look up what real representative democratic government means, I'll help you, it means government that represents the MAJORITY not wealthy, tiny minority elites! It ain't hard to restore Australian democracy, dunces, just BOYCOTT all major parties and vote for real representation in ALL future elections -- or accept slave status in the very near future!

Goodbye, automotive industry, Australia Post, Medibank, Qantas and soon everything else and enjoy reading the Bible with the censors, Abbott and all the paedophile Catholic priests that definitely concur with the censors and the SICK underground of abuse and perversity repression creates.

Fair fuckin' go!
