NATO chief and US puppet, Fogh Rasmussen, right on cue, joined the Obama and Kerry chorus of feeble minds, lies and GROSS hypocrisies. All one need do to get the picture from the video below is replace the word 'Ukraine' with Yugoslavia and 'Russia' with America!

The sovereignty of Serbia CONTINUES to be supported by International Law, UN resolutions and charters; we therefore ask that NATO forces and US occupation forces on the illegal military base, 'Bondsteel' withdraw immediately and return the stolen province of Kosovo to its rightful sovereign owner. The uninvited aggression and illegal occupation of Kosovo VIOLATES every law the NATO chief accuses Russia of violating today. Unlike America and NATO, Russia has not fired one shot in anger, in fact, it has prevented US supported/paid fascist forces killing more INNOCENT civilians in order to destabilise and foment more violence for the benefit of the world media and vested interests.

The world should remember NATO chief Rasmussen disregarding UN security council resolutions during the criminal bombing of Libya. Rasmussen's bombing raids clearly and illegally set out to target Gaddafi but failed to achieve the objective. NATO's 26,000 bombing raids -- in a no-fly zone -- on a defenceless nation devastated civilian cities and killed thousands of Libyan civilians simply because Gaddafi's Libya was free of international debt and the enslaving influences of the Global Reserve Banking cartel. A little research goes a long way.

The crimes and hypocrisies of NATO and the US are so OBVIOUS it beggars belief how these idiots could even face a camera and make complete fools of themselves in the process -- but they do because they have been told that the masses are mindless apathetic morons whose memory is wiped clean every 24 hours -- well, that may be true in the US but be assured the rest of the world remembers the gross crimes and injustices of US and NATO forces.

Now to Putin the bought and owned traitor and western lackey; I hope you are enjoying your patriotic military coming to the rescue of Russia and FINALLY assisting its allies!

A final message to Washington and NATO, you are aware that nuclear superpowers are not in need of support from weaker allies to wage a devastating nuclear war; Russia, China and America are all capable of waging a nuclear holocaust to the end, though China is the weaker of the three. We are also aware that Washington and the capitals of NATO nations are effectively under the influence of madmen.

You are forcing a situation from which Russia is unable to back down; also, be acutely aware that Putin is only a token president at the moment, so plan your next move wisely, as it may be your last!
