“nothing
new under the sun”

fancy inscribing
a grotesque lie,
there is nothing new
under the sun
fuckin’ Jews
nothing new,
WHAT!

no moment is like any other
every breath an individual expression
a pulse hard or soft
depending on a myriad
other factors

tangible
each exhalation/exhilaration
follows each inspiration
the universe draws in
and flows out anew

its pulse, its rhythm
resonates with eerie
regularity
but resonance is not
morbidity

synchronous
it alters ever so slightly
but alters nevertheless

no two grains of sand
are the same on this earth,
no two snowflakes replicate each other
nothing new?
fucking Jew

Shakespeare had you
all pegged
morbid undertakers

on a summers day
the fixed formality of lies
contained in the Torah
produces a uniform response
but its all yours
you own it,
its lies will impale your
souls

fuckin Jews
nothing new

'the utter futility of life,'
you tragic, perverse murderers

it is little wonder you oppress and torture
the rightful owners of Palestine,
usurpers

show me this God of depression --
he does not exist!

you use your own creation for
monetary gain
theft and murder
your God you made homicidal
psychopathic,
a spiritual ruin

futile?
'everything is futile'
it's a fuckin LIE
a giant lie

but what do i care?
a summers day
was never made for
stringed black-suited
undertakers
