

Oz Treasurer - Air and Sunshine are NOT Free

by sarge *Wednesday, Apr 23 2014, 11:51pm*

international / prose / post

"Nothing is free" harps Oz treasurer Joe Hockey at every pre-budget press conference, but to be sure, allow us to enlighten you, Joe!

Joe 'custard face' Hockey

If you haven't yet heard the NATIONAL murmur against your budget proposals then listen up, you reprehensible, elitist-serving PIG, Joe. Australian citizens that have shouldered huge tax burdens for their entire lives, up to 47% of income, HAVE EARNED the RIGHT to a pension and services -- in other words, you DUNCE, AUSTRALIANS HAVE WORKED for their 'ENTITLEMENTS!'

Repeating an absurd lie American style, that "nothing is free," to an educated Oz public will backfire in your elitist serving faces. Inform your masters, Murdoch and Rinehart that the public is NOT buying your transparent bullshit and that you (Libs) may find yourselves in political deadlock sooner than you think.

Your inflaming and insulting comment, Mr Hockey, that if the public doesn't like your lopsided, UNFAIR budget policies they can 'wait until the next federal election to change government,' is more ludicrous and provocative than your previous simplistic chorus; WAKE UP MR. HOCKEY and MR. ABBOTT -- what makes you think Australian citizens and patriots that have worked all their lives and served their country in combat would WAIT to remove a pestilence from the land?

Could I blame any Oz citizen or specialist veteran for dropping you and your leader in your tracks AT ANY TIME? NO! Or blame a patriotic political opposition, work force and citizenry for paralysing your government and forcing a constitutional crisis or other political crisis? NO!

If you push past the toleration limit of the culture then expect consequences, you traitorous dogs! Have we got it now, Joe? Let your cowardly boss Murdoch take the fall, you fat treasonous PIG. But then again, you may be right, there is a price to everything Joe, INCLUDING YOUR TREASON! If you require funds then review your corporate-serving purchase of '72' F-35 Lockheed Martin OVER PRICED flying lemons!

Oz is NOT mindless America, you deluded Liberal DUNCES, who do you think you're conning? Have you forgotten Gillard's/Labor's fate so soon? The Oz public will not wear another episode of backstabbing, be warned.
