U.S. doctrines of perpetual war while blaming others for U.S. instigated wars

Oz PM and pathetic Washington lackey, Tony 'errand boy' Abbott, is attempting to justify his purchase of "72" F-35 strike fighters which are known to have serious shortcomings and are proven dogs in aerial combat, especially against the Russian SU-30 Sukhoi, which Australia's very close neighbours have purchased at a fraction of the cost that servile Abbott is paying for the Lockheed F-35s. However, Abbott offers the Oz public an 'unassailable' excuse for his obsequiousness to Washington, "*You never know what's around the corner!*" Is this transparent moron, lackey, clown for real?

Abbott in Parliament

Meanwhile his treasurer, Joe 'custard face' Hockey, is attempting to make up the economic shortfall of the 14 billion dollar waste by targeting Australia's most vulnerable (pensioners) -- isn't that just like the LYING (broken election promise) two-faced, plutocrat serving COWARD that Abbott is?

It is not enough that corporate controlled Washington forced Canberra into the purchase, while other western nations are cancelling orders after observing the shortcomings of the OVER PRICED F-35; but to attempt to recover economic losses by targeting pensioners and social services that Aussies have worked for all their taxable lives, is possibly the ultimate act of bastardry and cowardice that any Oz government has ever engaged in, and that includes the backstabbing Gillard government!

We could all make lists of the treachery, lies and treasonous behaviour our politicians are now infamous for overseas, however, whether by Freudian slip, gaffes or other faux pas, disingenuous people always unconsciously offer the solution to themselves. Hearken back to Abbott's facile statement again, "*You never know what's around the corner;*" well, **Mr Abbott, THAT APPLIES TO YOU more than it does to anything else!** You are treading on very thin ice indeed, you treasonous, LYING, lackey, dog -- you are beginning to make universally despised Gillard look good.

However, two distinct solutions present themselves to the public, the second choice is as follows, withdraw ALL your support for parties and politicians that serve unrepresentative corporate/American interests:

"Ain't gonna study war no more!"

Abbott as iron man and imbecile
