Duplicity

let it go and lay back on a cloud it will support u if u surrender

swoon in space disengaged from corporeality

float

allow ur mind to to lead, just drift with it

or would u prefer a shoulder to snuggle into, ur such a child at times?

this is no time to play with ur favourite toy, my cock

i am spent from a memorable session with ur best friend's daughter

what is it about teenage hormones that invite a slow hand, soothing words and a man of experience?

or is it that young women instinctively understand quality?

i have often wondered but rarely hesitate or decline an invitation to assist a young woman in her development
