... is not watching the USA fomenting violence and supporting neo-Nazi fascists in a takeover bid, it's watching western bought Putin taking it up the arse, AGAIN!

Putin and 'ally' Gaddafi

Putin watched as the USA and Germany fragmented the Balkans and illegally stole and occupied Kosovo from traditional ally Serbia -- though he was not president at that stage. But as corrupt Russian president Putin passively watched the fiascos in Iraq, Afghanistan and Libya for which he had no excuse as he was on the UN Security Council that expressly forbade regime change, political assassination and national destabilisation. He squeaked like the mouse when NATO flagrantly violated every restriction imposed on it by the UN Security Council but notably Putin did absolutely NOTHING to assist victimised leaders and States or curtail NATO/US illegal activity.

Putin is under a little more pressure from within Russia regarding the Ukraine but will no doubt CAVE AS HE HAS DONE COUNTLESS TIMES IN THE PAST, and anyone that thinks otherwise is a wishful thinking fool or has their head buried in sand. Putin is a bought western puppet, his stashed western corruption money and previous track record proves it!
