

Abbott robbing the poor and vulnerable and giving to Corporations and Himself

by darcy Sunday, Jul 6 2014, 3:39am

international / prose / post

Notwithstanding the gift to mega-wealthy corporations and Oz plutocrats of reduced taxes and outrageous regulatory allowances, like allowing the dumping of [mining waste on the Great Barrier Reef](#), a pre-election favour to Gina Rinehart; and the [\\$60 million plus that Abbott has spent on searching for missing airliner, MH370](#); and the tens of BILLIONS he is contracted to spend on the [Lockheed Martin "F-35 proven flying lemon"](#), which has recently been recalled yet again due to another major (fires) design failure, servile dunce Abbott now finds it necessary to spend over \$4.5 million/year from taxpayer funds and money stolen from services education and necessary welfare, on himself!

Arrogant Abbott

Abbott is aware, as are his media handlers, which include Murdoch, that he is now more reviled than his predecessor, Julian Gillard, who broke all major records on the revulsion index by lying about the carbon tax, while Abbott broke ALL but one promise he made to the people, so it is no surprise he has in record time beaten Gillard's revulsion record. So what does this callous, lying hound do, pull taxpayer funds from the needy to spend on spin doctors and PR on HIMSELF -- give Oz a break?

It is clear that ALL Aussies that were taken in by this despicable, duplicitous, dishonest, LYING character must now face up to the simple task of removing him from office IMMEDIATELY (yesterday) as he is a known intransigent and never budes on his decisions -- Abbott is a true fascist if ever there was one. Interestingly, fascism is infamous for the 'cult of the personality' or 'leader worship,' however, Abbott has no chance, he only hopes to use his new taxpayer funded PR machine to survive until the next election in order to really do a 'good' job on the country! That why it is CRITICAL to the national interest and welfare of the population to remove Abbott from Office, ASAP! Achieve this end by popular DEMAND or by any other means, including legal plebiscite; it is fact that the people are not legally required to tolerate an unrepresentative leader that has reversed almost all his pre-election policies/promises -- notwithstanding his arrogance and the shameless contempt he constantly displays for the people, in fact he wears his disregard and callousness like an armband

No nation is legally obliged to tolerate a reprehensible LIAR, self-centred opportunist, and contemptuous hound as a leader -- self-centred Abbott no longer, or ever will, represent traditional

Oz values and the good people of this great and FAIR nation.

Report from ninemsn follows:

Abbott's \$4.3m spin doctors

by staff report

Taxpayers will be forced to fork out almost \$4.3m a year to fund a federal government hub of social media and communications experts.

The "Strategic Communications Branch" will comprise of 37 staff that will monitor social media and offer the government strategic communications advice, among other duties.

Despite the additional staff, the Abbott government still maintains it is cutting the cost of public affairs staff across all departments, explaining that the communications staff came from other departments.

"There has been no increase in the number of communications staff employed by departments," a spokeswoman for the Prime Minister said.

"In the May budget the government announced savings of more than \$43m to reduce the cost of public affairs across government agencies."

The latest staffing appointments have angered [useless] Opposition Leader Bill Shorten.

"At a time when the Prime Minister is cutting pensions and increasing taxes and cost of living pressures, nearly 40 extra staff members have been put on to try to spin his messages," Mr Shorten's spokesman said.

It comes on the back of last month's revelations that Foreign Minister Scott Morrison's departments employ more than 95 communications staff and spin doctors, costing at least \$8m a year. [Emphasis added]
