

Vassal States and the Global Elite

The following video has been around for some time, it reveals an extremely disturbing reality about (pretend) democracies and the shadowy dark forces that manage them. We know today that the information contained in the original script, which two leaders of 'independent' nations sold to their respective nations as authentic, was entirely fabricated and is now known to be a monstrous pack of LIES that cost over 1.5 million innocent lives -- a truly horrendous planned criminal act imposed on a rather naive trusting world in 2003. But has the global community rectified this now widely known historical crime and moved on?

Well, it is 2014 today and the source of the script handed to Oz and Canadian politicians is known to be Washington, which, to allay any misunderstandings, is known to be controlled by 'Wall St' and other (The City) financial/corporate interests that could care less about human life -- have you ever seen the value of a human life listed in any stock market index? Wonder not why the world is in its current state.

It is supremely evident today that a very small group of mega-wealthy psychopathic individuals do indeed control or manage the 'free' world, as is evidenced by the charade of democracy now exposed in the video and by the now completely exposed 9/11 conspiracy.

These are but two events (of many) staged and planned by the criminal global elite, which I would add, live in sheer terror of the prospect that the people will move on them in the very near future. It is not difficult to swat a mosquito that is sucking the blood from your body, such is the real power/proportion of the masses compared to the global elite.

Today a new conservative Oz PM is attempting to impose, by order of the same criminal elites, a European style AUSTERITY economy on the world's wealthiest per capita nation, Australia! This attempt by openly deceitful and treacherous Prime Minister Abbott is further proof of a global agenda that is followed blindly, as is obvious today; for instance, the attempt to impose an austerity economy on resource rich Oz is simply an absurd joke. All Australia's economic problems are easily solved by enforcing responsible taxation policies on large corporate earners, which today are the least taxed in society, work that out and then laugh duplicitous Abbott out of office. I imagine the same could be said for most western style 'democracies' and THEIR PUPPET REGIMES.

However, the most ludicrous prevailing situation is that literally billions of people seem unable to deal with a few thousand, at most, pathological social parasites leading the world to certain ruination. "Perpetual WAR" -- a proposition which no healthy society could tolerate for an instant but is unfortunately tolerated today, as is the completely transparent Bush government 9/11 story, which not only defies the laws of physics and reason but is widely known to be a pathetic fraud and cover-up?

Help restore sanity to the world; link, list and disseminate this story as widely as possible. Evil elites

exist on LIES and the best remedy for lies is the TRUTH!
