

A Sure and Permanent Defeat of the World's leading civilian killing nation, America

Given that most of Latin America, Africa, Asia, Eastern Europe and the Middle East -- over ninety percent of global population -- detest America and its criminal marauding ways, shouldn't the world's leading civilian killing, terrorist State already have been defeated?

Why haven't America leaders past and present been held accountable for their KNOWN crimes and the American nation isolated economically and financially? America, the VANDAL, has not contributed one cent to the removal of un-exploded bombs and other ordnance in Laos, Cambodia and Vietnam, which continue to maim and kill innocents (mostly children) to this day. Shouldn't criminal America (that kills its own, JFK, 9/11) be forced to pay all illegally bombed Indo-Chinese nations and other nations around the globe it has adversely affected?

Since the Balkans there is a long list of nations that have suffered massive destruction and the needless deaths of its citizens as a direct result of American corporate greed and political interference.

I am sure the average reader could easily add to the above list of crimes and intrigues America is directly responsible for instigating and committing; but we should concentrate on REMEDIAL ACTION and counter-measures to stop the marauding beast in its tracks -- not so easy, you say, too easy, I say. It is a matter of perspective and lateral thinking with some tactical assistance from Sun Tzu's famous treatise, *The Art of War*.

America goes to great (media) lengths to trick the world into fighting on its terms rather than on the terms of its HUGE opposition. Surely, every first year cadet knows not to take on an enemy where it is strongest -- and where is America strongest? It's MILITARY apparatus!

Surely, it makes some sense to target the soft arterial underbelly and surgically apply only slight but lethal force to topple the marauding beast! And where is that, you ask, O dear, and you still don't know though it's perpetually in your face, THE DOLLAR/GREENBACK is the key to defeating America and its vassal allies -- an economically isolated, pariah nation is a dead and powerless nation regardless of its (limited) State military power.

If over ninety percent of the world's population disagrees with and loathes America and its criminal ways then it should be a simple matter for that MAJORITY to reject the dollar/greenback COMPLETELY! And that dear readers would be the end of America and its power in the world today. No 'ifs or buts,' I've heard it all before, all that is required is dumping the dollar, especially as the world's default trading currency!

Watching that quintessential Jew Fed Banker, Greenspan, laughing off rumours that the USA is heading for bankruptcy, with the cynical, insulting and contemptuous statement that America, as steward of the world's default currency, could simply 'print its way out of debt,' was a truly sickening sight -- his remarks should have triggered the appropriate response from the global

community to withdraw support, but timing TODAY is everything.

APPLICATION not talk or anything else is required -- simply agree and DO IT! A not so difficult task for so many with so much in common.
