

ADF to train Ukrainian Neo-Nazi Forces in Oz

It is widely known that Washington is supporting extremist fighting groups to fight proxy wars on the ground; the trend began in Kosovo where the US rejected numerous moderate Albanian independence groups in favour of organised criminal and terrorist groups wanted by Interpol and other agencies for murder, arms and drug trafficking, white slavery/prostitution etc, the US went as far as appointing an Interpol wanted murderer and terrorist, Hasim Thaci, as Prime Minister of the stolen province, however, these nefarious activities were far removed from Oz but no longer.

The US, true to previous form, has enlisted the services of ultra-right fascist groups in Western Ukraine to overthrow the legitimate if unpopular government; groups that fought with Hitler's SS divisions and committed the most atrocious and horrendous war crimes against ethnic Russians and Poles during WWII.

Today these forces fight with the Ukrainian SS insignia patches brazenly displayed for the world to see -- the world except the Australian government and military it seems!

The Murdoch media (of course) has revealed that the Australian military will be training Ukrainian neo-Nazi forces on Australian soil to fight anti-fascist forces in the Crimea and south eastern Ukraine. This despicable and supremely dishonourable act cannot be glossed over or ignored by anyone that is aware of the reality of the situation.

Whoever is ultimately responsible for tarnishing the reputation of the ADF and polluting Oz soil with these SS criminals and fanatics should expect an appropriate response.

This despicable, treasonous action 'tears it' completely; many veterans and serving officers that are aware of the current situation will not sit idly by and watch Abbott destroy this nation's honourable fighting past and heritage -- for God's sake, servitude to Washington is one thing but going down this path is beyond comprehension. Abbott may in fact be, a dead prime minister walking!
