

Global Announcement from the Sovereign Australian Nation/People

It is broadly known that the current Australian prime minister, Tony Abbott, gained office by false pretences. Mr Abbott, in the most flagrant manner possible, lied and deceived the Australian electorate to gain office. As a result Mr Abbott clearly does not represent the Australian people, which he deceived or the nation that he treated with contempt; therefore, Tony Abbott and members of the political party he leads have forfeited all representative legal rights and therefore carry no authority in relation to Australian interests and the course the nation may take in the near future.

The Global community and Corporate entities be advised that any undertakings, agreements, contracts, representations etc, in any regard whatsoever that the aforesaid criminal pretender or members of his party make, create or otherwise are involved in, may in future automatically become null and void.

We make this global announcement now, on the publication date below, in order to advise and make extremely clear that future events regarding Mr Abbott and his party do not come as a shock or surprise to anyone.

Individuals that obtain advantage or gain via fraudulent, deceptive or any other criminal means are clearly not fit to occupy any position of responsibility, influence or trust, especially government positions that affect the course and destiny of nations.

The advice above also applies to previous prime ministers that have clearly acted against the interests of the Australian nation, in particular those leaders that have surrendered sovereignty to commercial interests by 'floating' our currency, which allows outsiders to economically enslave the nation or by signing any pact/agreement that allows foreign powers to militarily occupy and/or establish foreign (nuclear armed) military bases on Australian sovereign territory, land or sea, which would transform peaceful, reconciliatory Australia into a primary nuclear target in the likely event of an America provoked conflict. Be so advised Ms Gillard and Mr Keating -- of course, Mr Howard is a known war criminal and would be dealt with in the appropriate legal manner.

Take note all current and previous members of the Australian judiciary, as no-one that occupies or has occupied a position with the authority to respond to the above mentioned crimes against the good people of AUSTRALIA would be spared.

BE SO ADVISED WORLD this Sunday, September 14, 2014.

[We encourage all recipients of this announcement to disseminate, link and share by whatever means are at their immediate disposal.]

A healthy **Democracy** simply cannot tolerate any leader that gains office on a raft of lies and then

pretends to represent the people he betrayed. Tony Abbott clearly holds the Australian public in utter contempt to be able deceive them to the extent that he did. Abbott and treasurer Hockey must be removed from office immediately and placed on trial for their RECORDED, clearly planned, crimes of fraud, deception and intent to gain/obtain advantage by false pretences -- it really is that simple!

We must ask ourselves as Australians why various local regulatory bodies and the judiciary have failed to respond to the obvious crimes of Tony Abbott and his inner circle of duplicitous, two-faced, deceptive gang of political bastards.
