

ISIL, right on queue ..

I remember clearly when CIA operative Bin Laden was the focus of the perpetual war on terror and how he would release a video or tape just when the US population required scaring -- at elections, the passing of unpopular bills/laws that eroded liberties, etc. It was laughable to witness how these instances defied probability -- on one occasion Bin Laden, who had been silent for months, released a video just when dubya, who was running for his second term, needed him most, coincidence, I doubt it? Well, though it was as transparent as could be to anyone with a working brain, these idiotic, unidentifiable (fabricated) tapes and videos worked a charm to sway the American people this way and that!

Look at all those Toyotas!

And so today ISIL, supported by the CIA, Saudi, Qatar, Turkey and Jordan is a far more sophisticated act. Readers should notice how the media behaves, it's a dead give-away, very little background (Libyan intervention and the pillaging of Gaddafi's weapons depots) and how the movement seemed to appear on queue fully formed and functional just in time for the [partitioning of Iraq](#) into three sectarian areas, Sunni, Kurd and Shiite, an old US plan; and not to forget another assault on Syria, which failed initially; ISIL/IS is plan B, primed and ready for deployment. I have just two words for the duped international volunteer imbeciles doing the all the dirty work for a corrupt Muslim ISIL hierarchy and the USA, **useful idiots!**

Notice how the 'fear reach' of ISIL extends globally thanks to the CFR run western mass media; we now have Washington lackey and Oz PM Tony Abbott, announcing the [loss of civil freedoms \(9/11 style\)](#) and the subsequent erosion of social liberties and rights due to the 'ISIL threat' -- [800 police in Sydney pre-dawn raids only 2 arrests](#) -- should tell the tale better than reams of media bullshit. I would add that the hard-won rights and liberties US citizens lost, were never returned to the people -- so now it's idiot Tony Abbott, "keeping Aussies safe."

ISIL is a far more polished, streamlined, sophisticated, pervasive international threat to order; a few beheadings followed by corporate mass media saturation campaigns worldwide and it's 9/11 hysteria all over again -- *"keep those doggies movin' rawhide!"*

Let's not forget that all this media hysteria (crowd control) distracts from Abbott's Draconian social policies, ineptitudes and deserved unpopularity; the REALITY that he gained office by FRAUD on a

RAFT of LIES, false pretences in other words, should never be forgotten. We can make it go away by maintaining focus and legally removing Abbott from office on fraud charges; REALITY should never defer to orchestrated media hysteria and fabricated fantasy.
