Remember Abbott and treasurer Hockey screaming we have no money and that is why they imposed (unnecessary) EUROPEAN AUSTERITY onto Australia? The truth is that elite global oligarchs and plutocrats have an agenda and that is to constrict global populations with debt slavery -- never mind the trillions of dollars that tax-evading multinational corporations extract from Oz -- very little of which is returned to the nation -- the globalist agenda is SLAVERY for the masses via financial means!

Incompetent treasonous clown, Tony Abbott

It is no secret that Oz is an incredibly wealthy nation but do the people see any of it? Hardly, treasonous Abbott serves elite globalist interests and that is why he allows foreign Transnationals to rape and pollute the nation at will. It should be clear to everyone now that Abbott is at the beck and call of the globalists or what should be termed the real (shadow) government, as it is they that dictate policy to ALL western 'democratic' governments. Treasonous issues aside for the moment, Abbott insists that he is able to manage the cost of a war waged half way around the world -- but where did the money come from if we're skint, as was the initial FALSE claim made by LYING treasonous conservatives?

There is no budget problem aside from REVENUE, which SPINELESS Abbott and his cowardly, callous treasurer are unable to extract from the highest earners -- *those that benefit most from the nation should return most to the nation, a simple and effective tax rule!*

Few Australians give a damn about another extremist war that the USA CREATED -- whoever breaks it should fix it, COSTS included -- so I EMPHASISE for those with thick skulls, Oz should deploy our military in OUR REGION to best serve OUR security and national interests NOT serve Washington every time it demands that other nations clean its soiled nappies!

Furthermore, the figure of \$500m/annum is one which Abbott pulled out of his lying arse -- if Oz unwisely gets involved with another US created military DISASTER, **HISTORY DICTATES** that all cost figures will blow out to astronomical proportions, and guess who pays, the financially oppressed Oz population -- while Transnational corporations continue to RAPE/reap HUGE PROFITS which they take offshore to shirk their TAX responsibilities?

That about sums up INCOMPETENT, LYING errand boy Tony Abbott and his DISHONEST

government. It is CLEARLY OUR REGION and our Asian and South Pacific neighbours that are of critical importance to Oz, not a bunch of extremists the USA created to fight its proxy wars -- the truth is that IS/ISIS is simply a pretext to continue the Syrian campaign directly and segment or Balkanise Iraq.

Legally it is clear that Abbott gained office by FRAUDULENT means (false pretences) therefore, he and his troop of treasonous, servile clowns are easily removed if the people and judiciary are of a mind.
