The Australian media industry is currently saturating the airwaves with stories of PM Tony Abbott putting on a tough show regarding Putin and flight MH-17. Now, notwithstanding that Abbott is a political pipsqueak in comparative terms next to Putin, the only weapons he has in his pathological, duplicitous toolkit are LIES and misinformation. Abbott is LYING through his teeth yet AGAIN and acting tough for political gain and to enhance his image and distract from his crimes (FRAUD). If we stand back from the media onslaught for a moment and take stock we immediately apprehend that Abbott is a very WELL KNOWN PATHOLOGICAL LIAR who gained office by premeditated fraudulent misrepresentation, that is the REALITY and leopards/politicians do not change their spots.

Disingenuous, duplicitous, loud-mouthed clown, Tony Abbott

The official investigation into the MH-17 incident is being conducted by the Dutch, which are known to be partial in favour of the US, even so, their initial findings clearly state that, and I [quote](#):

"The airplane broke up mid-air as a consequence of structural damage caused by a 'large number of high-energy objects' that penetrated the aircraft from the outside".

Abbott's false claim (LIE) and accusation against Putin is that Russia supplied a surface to air missile (SAM) to anti-fascist fighters which was used to down the jetliner, which claim is utter bunk, as existing (irrefutable) photographic evidence and the biased Dutch report refer to multiple, 'large number of high energy objects,' consistent with jetfighter cannon and machine gun fire.

Furthermore, experts on [video record](#) state the same, that the aircraft was shot down from the air not the ground as Washington and Abbott falsely claim. The evidence is overwhelming and Abbott has been exposed yet again for being what he is, a deceptive, manipulative, lying, scoundrel that would do anything to maintain his hold on power, which I might add, is threatened by potential criminal proceedings for obtaining gain, the highest office in the land, by calculated FRAUDULENT means!

These are the existing facts on the MH-17 incident, refer to embedded links above for additional

PHOTOGRAPHIC evidence and professional assessments.

My comment on Putin is that he would hardly be moved by an insignificant, lying, loud-mouthed flea like Abbott.

LIAR!
