Jihadists are simply Muslim useful idiots

I know feeble jokes is one way to reach the media-lobotomised herd, so we'll give it a go.

Tony Abbott, LIAR and Criminal Fraud

OK, so how many?

Answer: None!

Jihadists and Christian fundamentalists have an aversion to Light.

Too obscure for you? Then join ISIL or subscribe to the extreme views of any Christian TV evangelist -- he/she could always do with more financial contributions, you mindless morons!

The ruling criminal elites got one thing right -- the global herd is only fit for servitude/slavery.

Enjoy battling with your imposed debt-slavery! While you work like a dog and produce to service your debts the criminal elites just print money on demand from THIN AIR which they then loan to dunce slaves like you -- do some research, MORONS! Stupid is as stupid does, you fuckin' brain dead drones. And that applies to wine-imbibing, beer-swilling Aussies that have allowed a pathologically LYING criminal (under existing LAW) Tony Abbott, to remain in the office of PM -- a position he stole by PREMEDITATED FRAUDULENT MISREPRESENTATION. Abbott lied more than all previous PMs (since federation) put together. So grab another stubbie or glass of wine and kick your dog, you reprehensible COWARDS -- Australia was once the best nation on the planet but YOU blew it, you useless, apathetic push-overs!

Have you noticed how Abbott screams we're [broke](#) to justify his financially oppressive policies but pulls hundreds of millions of dollars out of the 'broke' national kitty to finance our involvement in a US created war against ISIL; he also contributed [\\$20 million for Ebola](#) on top of the [\\$60 million](#) previously spent searching in vain for MH370, and that notwithstanding the tens of Billions he has spent on the [F-35 flying lemon](#) from the desperate to unload, Lockheed Martin Corporation -- the more you research the uglier it gets for everyone except Abbott's bosses the corporations that rape Australia for TRILLIONS of dollars per annum and then run to off-shore tax havens to avoid shouldering their tax responsibilities in Oz! It's very simple, every dollar made in Oz should be taxed

in Oz. Governments that do not know how to regulate corporations always burden the long suffering average Oz worker, notwithstanding that the 'broke' MYTH is simply an EXCUSE to implement globalist economic slavery policies.

It's not about Putin, MH17 or any other emotive distraction his spin doctors create TO DISTRACT, IT'S ABOUT CRIMINAL FRAUD, DECEIT AND MISREPRESENTATION and the removal of a calculating brazen criminal from the highest office in the land!
