

MH17: It seems that Abbott may have to 'shirt-front' Obama

Recent [reports](#) make it quite clear that MH17 was shot down by the Kiev neo-Nazi regime supported by Washington, which would explain why Google removed compromising images from its database and Washington ordered dunce Abbott to attack Putin and run with a LIE, something Abbott is very familiar with!

Anna Petrenko, air traffic controller responsible for MH17

The UK Daily Mail has revealed that 30MM aircraft cannon shell fragments were discovered in the bodies of the pilots and that combined with bullet holes, from jet fighter strafes on the wreckage of the cockpit and fuselage, exposes the US false flag operation to compromise Putin; but what Washington doesn't know is that gaffe-prone dunce, impulsive loud-mouth and inept pathological LIAR, Abbott, will do his unintentional best to blow it for everyone in Washington -- another great choice, Rupert, it's little wonder the 'CFR' is extremely displeased with you -- Abbott, "a good man," choke on it!

However, the most damning news is that the air traffic controller Anna Petrenko (pictured) responsible for MH17 in flight AND the jet pilot that allegedly shot down MH17 have disappeared, both were last seen in Dubai, notwithstanding their lives are not worth 2 cents if Washington or Kiev is able to track them down -- they know far too much.

The above claims and revelations concur with the [assessment](#) of professional Dutch pilot, Peter Haisenko, who initially exposed that the aircraft was shot down from the air, as the wreckage and now shell fragments in bodies, clearly indicate.

However, we don't buy the Putin assassination attempt story which shifts responsibility onto a Ukrainian oligarch said to despise Putin, it seems that Russia is allowing the US room to move on this and is showing good faith and a willingness to co-operate -- State (open) secrets being what they are! But of course the US is unable to cooperate, and Putin should wake up to the fact, as it is controlled by corporatists and mega-banksters that have [no choice](#) but to pursue their insane agenda as they are facing ruin as a result of an impending halt to their expansionism.

But whatever the case may be, one thing is certain Tony Abbott will blow it as he is an inept dunce, hopeless liar and gaffe-prone clown of the first order. Why the Australian public has not yet brought charges against him for criminal fraud re: calculated and intentional election lies, is beyond me.

My final word is, good luck Washington and of course all the best to geriatric, passed it, Rupert Murdoch, another great choice for puppet PM! And for Aussies that imagine that the Murdoch owned Labor Party is a [viable choice](#), just keep reading Murdoch's newspapers for all your 'news.'

Murdoch's choice, liar and dunce PM, Tony Abbott
