

Charlie: Free Press Charade Full Steam Ahead

by gus *Saturday, Jan 10 2015, 9:26am*

international / prose / post

It's amazing how monitored terrorist fanatics mysteriously are taken off watch lists just before they commit their acts of terror, this fact applies in both Oz and France, yet how many western media outlets investigate the obvious question?

Now consider the propaganda delivered by active CIA agent Ed Snowden, remember how China was his first choice for asylum -- give me a break! SunTzu wrote the book on war and spying so agent Snowden was faced with plan B, propagandise mass surveillance and terrify the entire world that all digital communications are being monitored -- monitored ay!

Well, tell us the story of MH-370 or the truth of MH-17 or how mass surveillance FAILS to detect the REAL terrorists rather than the public it wishes to control. But of course we know why they can't, don't we, just check the uniform message that is currently being broadcast world-wide -- the thinly disguised subtext is clear, implementation of a POLICE STATE, managed criminal terror acts are simply the pretext!

The pure garbage that is issuing from the western media world-wide as I write is a joke, watch the so-called "law makers," puppets of the wealthy elite, implement new oppressive social laws in the very near future, over what? A few useful idiots that are clearly allowed to commit these acts in order for a mega-wealthy global elite to feel safe, not from terrorists who they clearly support and need, but from the masses who they truly fear most.

Is there really a free press if they all read from the same script and all roads lead to propaganda? The script is so uniform it is ridiculous but they have done their marketing research and are aware that over 80% of the global population are media-led, pliable morons. Well, tally-ho for them, but that leaves 20% that are not so easily led, they are easily able to see through the propaganda media apparatus and the constant stream of unadulterated bullshit.

Now consider the privately owned corporate media and the concentration of media ownership, and you tell me about a 'free press' -- LOL!

You would discover to your horror, if you care to do the most cursory investigation on the internet, that the CFR sets the media agenda world-wide and controls what is fed to the moron 80%. O really, but do not believe me or the media, open your eyes and look through the transparent bullshit and you too will see an agenda (police state and social control) from all the UNIFORM western reporting world-wide -- and what does that indicate? Anything but a free press!

The western media machine is simply a propaganda apparatus that markets the wishes and designs of the unrepresentative globalist elite that quake, quiver and shiver in terror that one day the masses will wake up to the ruse, as they are now doing -- well at least 20% today.

And if you imagine that is a tiny percentage of the 6.6 billion on this planet read history and realise that momentous social change is usually effected by a handful of visionaries and dedicated, AWARE experts in their respective fields.

I mean the truth is bloody obvious! And 20% is more than ample to ensure the demise of the most evil elite that history has ever known.

Do you really want to know who the REAL terrorists and enemies of freedom are? Then simply follow the world's leading civilian killing nations -- America being the foremost -- to their agenda source and you'll find they are Christians and Jews? What a shock, as that group are never depicted as terrorists by the mass media, so what's the unreported leading civilian killing nations got to do with it? Well, everything!

Feed the above facts to what's left of your mass media-soaked brains. O sorry, you're one of the 80%, I should have known -- LOL!

The REALITY is simply this, even if the media was able to convince 95% or 99% of the global population that is not near enough to stop the inevitable. Choke on some hard historical and statistical reality, you evil globalist bastards because we are closing in and we do not need guns, we have much more efficient means of dealing with the problem, you dumb, terrified, evil bastards!
