

Beyond the Pale -- clearly Inappropriate and Inflammatory but Tolerated in Fascist Queensland

Well known ultra-right-wing Australian Gold Coast resident and cartoonist Larry Pickering is abusing the nation's tolerance, egalitarian principles, free speech and freedom of expression by his distasteful and SELECTIVE attacks on Islam at this most sensitive time. To be fair, which Pickering is not, he has also 'served it up' to Catholics, politicians and others in the past but rarely if ever, to the doctrinal genocidal Jews. Allow me to expand on a critical point.

(Dead man walking) Larry Pickering's biased and inflammatory work

Indeed all superstition and religion, particularly doctrinally VIOLENT RELIGIONS, should be challenged at ALL times in secular societies -- Judaism is by far the worst offender in that regard as the clearly fabricated Jewish 'God' not only condones but orders the total eradication, mass murder/GENOCIDE of non-Jews, read Deuteronomy and Joshua for verification. However, the most appropriate and effective challenge is of course to use REASON, not emotive, inflammatory pieces or depictions which are CLEARLY SENSATIONALIST -- which is of course the lowest and cheapest form of journalism/reportage, as it does not serve society in any positive or harmonious way -- it also goes against the grain of Australian traditional values. A few examples of using REASON to refute religion in general follow and I hope it becomes readily appreciated that ALL religionists are simply slaves to other MEN.

Consider first the universal claim by all religions that (their) God is omnipotent, and for Pickering's information that means 'all-powerful.' But notice how the Gods of the major religions constantly require the feeble assistance of mortals to perform tasks including genocide. How so? Rather than ask mere mortals to kill or perform the simplest task why does not an all-powerful being that also seems to be easily offended by insignificant mortals, simply do it him/her or itself? If God truly wished to kill offenders he/she/it would of course do it himself as the offence is clearly directed.

The obvious and simple answer is that something that does not exist cannot effect the slightest change therefore it is cunning men that use fabricated Gods and religion to govern and impose their values on other men. The next example seals it, as it is the result of pure reason.

All religions claim their God is PERFECT and by definition perfection allows for no imperfection,

otherwise perfection would be corrupted and therefore not perfect. A perfect creator-God would therefore be incapable of any imperfect creation as any concept of imperfection or fault could not exist -- well take a good look around today and tell me we live in a perfect world and that man is a perfect being! What a thoroughly ludicrous assertion, all myths relating to perfection are simply misleading lies and myths, as REALITY clearly proves otherwise, you supremely dumb, fearful, easily-led, violent religionists!

Now, Larry Pickering is aware that his few readers are feeble-minded and easily fall prey to his outrageous BIAS and that the mass media assists in the process by also demonising Islam by more subtle sub-textual means and via secondary layer discourse. So you make the judgement on Pickering's SELECTIVE stance today -- a supremely cowardly stance I would add!

A little perspective and it becomes clear that Pickering serves the Zionist and plutocratic elite status quo, isn't that right Queensland premier, Campbell Newman?
