[Parochial](#), insular, London born, Tony Abbott, has proven that once the die is cast there is no altering the pattern. The traitorous, plutocrat/corporate serving pathologically lying Oz PM that stole office by calculated fraud and deceit, has just out-done himself again by formally making a request to London to knight Prince Philip, the British Monarch's husband -- how quaint, antiquated and incredibly retrograde.

Tony 'genius' Abbott

With nowhere to go Abbott took refuge in the only thing he knows, living in a conservative box; however, simpleton Abbott has taken anal retention to new contractionist levels. Abbott lauded the British Monarchy in whose NAME a nation was stolen, genocide of indigenous tribes was committed and in whose name innumerable horrendous injustices were inflicted on our first FORCED settlers. Good work dunce Abbott! What Abbott has effectively achieved is highlighting the fact that British Royalty, which continues to legally rule INFANT Australia, is LIABLE for ALL the appalling crimes committed in its name. Choke on it Murdoch and ilk, we warned you that visionless simpleton Abbott would 'blow it' for the lot of you and guess what, Washington?

Hundreds of thousands of legal cases by surviving Aussies for dispossession of tribal lands, genocide, torture and enforced slave labour could flood international and local courts as the British monarchy remains the legal NON-REPRESENTATIVE ruler of the nation, and as such MUST accept FULL responsibility for the entire horrid early history of the nation! You've got to laugh when it becomes obvious that any consultant able to put a sentence together would have advised Abbott not to proceed with this retrogressive action but Abbott is known to be impervious to reason, the advice of his peers and his hired consultants, Abbott prefers to bludgeon and bulldoze ahead regardless of political cost and social fallout. So let's all hear it for the LAME Liberal Party that remains paralysed while Abbott sinks the party to even lower depths. I mean who really believes the codswallop that changing leaders is disastrous to a party, in Abbott's case it is an obvious necessity, the idiot is unable to put a foot right notwithstanding he advertises his contempt for the population by his persistent, insulting LIES to a public that now knows better?

Has it occurred to Abbott that over 50% of Oz's current population are of European and Asian background and couldn't give two hoots about antiquated British monarchical rituals! Even today's Anglo Aussies have no interest in being SUBJECT to any 'foreign' monarch, but Abbott as usual has acted on his amazing and uncanny ability to fathom the public's mood and consciousness (on Saturn)

and determine his next political move. So yea Libs of Australia, whatever you do don't change your leader, you pathetic bunch of mental lepers and spineless wimps.

I need not press the point, as Abbott will no doubt do another fine job on himself and his useless party. We can't wait!
