

Bishop and Turnbull FAIL

With the entire population screaming 'get rid of LYING dunce Abbott' to the **INSULAR Libs**, there are no excuses for inaction, particularly from the front bench.

Turnbull and Bishop, lack what it takes to lead

It seems neither Malcolm Turnbull, a previous fail, nor Julie Bishop have what it takes to lead their party let alone the nation; they were both warned that a spineless display would neutralise any chance they may have for a leadership challenge and so it goes, ***the ENTIRE Liberal Party front bench MUST GO WITH ABBOTT -- a completely NEW fresh leadership team must take over from Abbott and his spineless flunkies or its goodbye conservatives from viable Australian politics.***

Another major show of total cowardice is that politicians are loath to state the obvious -- Abbott is TOXIC because he LIED through his teeth to steal office, notwithstanding he was ALWAYS a disingenuous DUNCE. The affront to the Australian people was unprecedented and corporate serving Abbott continues to treat the public as 2-year-olds, his repetitive facile phrases and hand movements display his utter contempt and condescension for the people.

Well, the Australian people have news for the Libs, if they do not act very soon and decisively the people will NOT FORGET -- need I refer to Queensland.

Oz has always admired and respected talented, dynamic Statesmen, something reviled dunce Abbott or any member of his LAME front bench could ever hope to be.

Regardless of the outcome the Australian people have become acutely aware that Federal and State conservative partys do not give a damn what the public thinks; conservative politics is not about democratic REPRESENTATION, it's about lies, deceit, fraud and an ARROGANT born to rule ideology!
