Here's the long and short of all the political crap of late. The overwhelming majority of Australians are personally offended by Abbott's continuing LIES, unfair policies and calculated deceit, which of course no politician will mention though it constitutes a herd of elephants in the room, Mr good-for-nothing, Bill Shorten. What type of person lies in your face then OPENLY screws you and hopes to remain your friend or leader? It is impossible to ignore Abbott's gross LIES, dishonesty, ARROGANCE and heartless attitude to the people while he openly CONTINUES to serve corporate and minority interests.

Abbott is an arrogant, narcissistic, pathologically lying sociopath, and there are many in the singularly driven corporate environment today. Be that as it may, that does not allow for the same type of sick individual to occupy important social positions of trust and national leadership, in fact that type of personality is the antithesis of what is desired in a national leader.

It is immaterial whether Abbott delays his inevitable demise and the Libs suffer irreparable damage as a result -- the outcome is certain as it's the PEOPLE that have been deeply offended by lying, contemptuous Abbott, and it is the people that will NOT FORGET what officials are constantly at pains to ignore, the loathing that permeates the community regarding Abbott, his flagrant dishonesty, arrogance and OBVIOUS contempt for the people.

Abbott AND his Libs are playing 20th century politics in the 21st century and doing exactly what Gillard did to finish her political career and party -- IGNORING THE VOICE AND WISHES OF THE PEOPLE!

No-one gives a shit about which Libs support or do not support Abbott, the people simply want Abbott removed -- GOT THE MESSAGE?
