Dead woman walking

The alternative media luvs u girl. Continue misinforming ur idiot boss that the 21st century does not exist and that antiquated last century politics will get him thru. Please continue the misinformation that the digital media phenomenon is only electronic graffiti and has no influence on real world outcomes tho it is plainly an energetic part of the real world that taunts ur tortured face!

The idiot advising the imbecile

You are slightly younger than your boss tho u do not look it, u should know better but u have failed Ms Cretin. u will no doubt continue to advise ur boss how to speed to his demise -- 'onya peta, we luv you!
