

Eyes

international / poetry / post

ur eyes penetrate
my defences
so i allow them
to explore the
endless maze of my
inner being,
a place where angels
fear to tread

i often wonder what ur heavy
with emotion and yearning
eyes
seek

i would gladly accommodate
u if i could
but i imagine what u seek
i am not able to grant and remain
myself

perhaps it is exactly that,
you seek to change
what u fell in love with,
if i acquiesce understand
we both lose

explore every aspect of my being,
feel ur way thru
i am aware of every curious
move u make

be aware that certain spaces
contain all manner of experiences
i do not venture into some recesses
myself
but u are welcome
