Democracy is MAJORITY rule, by direct participation and/or representation. Abbott and the Libs are clearly an anti-democratic, minority CORPORATE serving government, the contempt conservatives have for the people is self evident. Do not be beguiled by the privately owned CORPORATE mass media and its 24 hour 'news' cycle, which is designed to wipe the memory clean each day -- REMEMBER!

Tony Abbott and Mike Baird

The best proof is that which issues from the mouths of the felons themselves and no better examples exists in Oz than on the site linked below.

Be very aware and clear about Abbott and his Liberal State counterparts -- it is clearly not in the people's interests to install lying, corporate serving governments anywhere in the nation. The people will not be taken for granted or have their national assets sold to greedy, tax avoiding, cheating corporations and then take being lied to and treated with obvious contempt and disrespect. The people have spoken in Victoria and Queensland - ensure the same result in the great State of NSW.

We CAN save the State of NSW!
