

## The Police State is Spying on YOU NOW, where is your Backbone?

With the passing of the meta-data retention Bill into what is laughingly called the 'law' in vassal State Australia, the nation has followed the U.S. into totalitarianism and the evil, mega-wealthy, shadowy, ruling elite couldn't be happier; they now have the means to spot dissenters and fighters for freedom and DEMOCRACY with ease. So who takes responsibility for this outrageous anti-democratic act, the people of course - corrupt, unrepresentative politicians are a given these days?

The democratic majority were once active participants in social policy and a force to be reckoned with, the fight for a living wage and civilised conditions and the cessation of the illegal Vietnam war to mention only two fights for equality and justice that the masses won, are examples of a socially aware and participating public. The fight against tyranny and exploitation is as old as humankind but only today has the world seen paralysis on such a large scale.

The fight against callous, self-serving wealthy elites, which of course are served by bought puppet politicians from both major parties and various lobbyists today, must be maintained in order to ensure a balanced fair society. Failure to act in the face of outrageous injustice or diminishing rights spells doom, of that be assured, as history clearly bears witness.

Mass murdering destructive and exploitative elites never relent in their pursuit of total control - which extends today, thanks to digital technology, to the entire globe - we must all be vigilant, not passive or compliant to clearly destructive and self-interested forces.

Every calamitous, UNNECESSARY destructive war waged today since the global elite succeeded, via their neocons, in capturing America, is fought for THEIR benefit alone and people throughout the WORLD pay a horrendous price for not attacking the problem at its source - the rapacious and polluting - in every sense -- mega-banking and corporate elite, which are behind the techno-military and energy industries that profit most from other peoples' hardship and woe. And yet unless citizens get shotguns shoved up their stupid arses, they remain docile and compliant to the most outrageous direct attacks on democracy ever seen - police State totalitarianism and pan-surveillance is the polar opposite of democracy.

Allowing puppet, CLEARLY UNREPRESENTATIVE governments and other compliant politicians - thanks so-called representative back benchers in Oz - to pass Bills diametrically opposed to

democracy, civil liberties, freedoms and hard won rights, is more than stupid or corrupt, it's INSANE and reflects almost the total corruption of government systems throughout the free world -- or what's left of it!

This servile, docile pathology that now infects, via digital means, the GLOBAL majority has become a plague and its cure lies in the SPINE and instincts of every individual, we are all SOCIAL, peaceful, FREE human beings at heart, nature has ensured that for our survival.

Governments that support corporate and banker elites are easily identified, they would sell and surrender ALL assets which formerly belonged to the people to the criminal private sector and allow corporations to take control of almost everything, as has already been done in the USA, which has now become a police State in order to protect the unrepresentative, anti-social minority.

Surely Australia, identifying people like Abbott, Baird and Shorten as servants of the mega-wealthy cruel and heartless elite is not difficult; VOTE only for REPRESENTATIVE INDEPENDENTS at every election Federal and State and send a clear message to the unrepresentative, bought, corrupt sell-outs that infect out parliaments and governments today.

Save your nation by saving yourselves, at least save Oz from Americanisation (corporate control) and evermore social hardship and enslavement. America is clearly not the bastion of democracy and freedom it once was, it is not even a nation anymore, it's a DISEASE and must be prevented from infecting other nations around the world. Vote for yourself, vote INDEPENDENT and put an end to authoritarian, duplicitous, draconian regimes for good.
