Alan Jones, Oz shock jock and demagogue has created a storm over a comment made at a conservative gathering. No, it has no relation to his toilet loitering homosexual exploits, his rabid racism, misogyny or other conservative values; this time (he is known as a repeat offender) he smeared the reputation of the deceased in order to undermine the living. Jones took aim at the recently deceased father of the Prime Minister no less and claimed the "old man .. died of shame!"

Toilet loiterer, Alan Jones

In an effort to undermine the already tattered reputation of the pathologically LYING, no integrity, PM he reiterated, 'everybody knows Julia Gillard is a LIAR, the old man died of shame!'

After creating a media storm over his (typical) comment he made a weak attempt to apologise directly to the PM but Juliar Gillard refused to take his call or accept his apology.

If we remove ourselves from the media hysteria and look rationally at the situation it is clear that Jones, who is a thoroughly obnoxious character, cleverly used facts and insinuation to launch an attack on Australia's lying PM. It is known that the Gillard family is of a lower working class UK background -- father John emigrated with family to Oz for the opportunities and better life Oz offered.

Juliar Gillard, during her appalling tenure as PM has made constant reference to her working class background and the values her father instilled into the family, these comments are designed to gain maximum political value from average working class Aussies, the social group she has sold completely down the river.

Lets look at Gillard herself and her appalling verifiable record; her attempts to sell her background to the public as some sort of credential have failed simply due to the FACT that she is a brazen LIAR, 'LAWYER' and proven CORPORATE LACKEY!

The first indication the public received of her true character was during her capacity as deputy to former PM, Rudd; she attempted to grant Corporate bosses the legal right to spy on the private emails and other digital communications of their employees! This over-the-top gesture was quickly set aside though it revealed a great deal about Gillard's true character and allegiances.

She since went on to stab Rudd in the back and win office based on an (insulting to the population) LIE, regarding the (Goldman Sachs) Banker-Corporate designed Carbon Tax, which she expedited for her masters regardless of cost to the public and her political career -- such is her subservience to the plutocrats!

Gillard clearly has no integrity whatsoever, she is a rancorous LIAR of the worst (inept) kind and is without doubt the biggest SELL OUT PM Oz has ever had the misfortune to endure.

Furthermore, her obsequious kowtowing to Washington borders on treason; the truly sickening speech she delivered to a joint sitting of Congress -- while on a US visit to sign over rights for an unprecedented F-I-V-E full (nuclear) scale US military bases of occupation on our soil -- casts her true sell-out character in the historical record forever.

No-one outside the family knows what a disappointment Juliar may have been to her father, though that arsehole Alan Jones may not have been too far off the mark!

In conclusion it should not be forgotten that the values Jones exhibits are shared by his boss, media magnate John Singleton.
