

Kill 'em all doesn't work it only breeds civil revolt and eventual freedom from oppression

Gandhi broke the back of empire with passive resistance but resist Indians did in no uncertain and very brave terms, unarmed and sworn to peaceful protest they were slaughtered in the thousands until they cast off the chains of imperial oppression and exploitation. America has been indiscriminately killing civilians since Vietnam and so it will reap the same result – how could any sane ruling elite hope to persist in the grossly unfair and murderous world they created in order to loot, pillage and steal everything of any value – insanity pure and simple?

Lunatics and rogues now control most western democracies and the people have woken to the fact. Instead of leading the world into harmonious peaceful existence America has chosen to follow the failed methods of previous empires and so will reap the same results.

America continues to kill civilians indiscriminately abroad and at home and I pity the police and military responsible. The 'kill 'em all' mentality has failed miserably time and again; it cost Britain its empire. So what has America learned, NOTHING, and so we see the beginnings of the end of America as we have known it since Independence?

People everywhere are realising that a tiny parasitic minority has lied, cheated, stolen and created the largest wealth gap in modern if not all history, the result will be widespread chaos and violence and there is not enough bullets or will to shoot fellow citizens in order to protect a few thousand parasitic rogues and their ill-gotten gains.

People are now taking back what is rightfully theirs by force, but it didn't have to be this way – good representative government could have prevented the inevitable but tell that to the deluded fools that imagined they were exceptional and could get away with the usual tired and failed methods – the Orwellian media has failed to contain the Truth which has erupted like a volcano and will continue to erupt until the WORLD is FREE of the avaricious scum that created all the destruction and hardship the masses have endured for decades – well, IT'S ALL OVER NOW BABY RED, WHITE AND BLUE!
