No sooner had the ink dried on a previous [article](#) regarding the dangerous servile attitude to war mongering Washington displayed by our federal politicians, than Abbott, the 'iron man,' (LOL) informed the national press that "the US had no plans to base B-1 [bombers] in Australia," even though Washington openly stated the [contrary](#) (read through the associated Murdoch bullshit). Also, from the [AFR](#) "... top officials who said the US would be "*placing additional Air Force assets in Australia ... including B-1 bombers and surveillance aircraft*".

Abbott sucking up to Obama, a national disgrace!

Gaffe-prone, gutless imbecile Abbott let it slip once again. **What does AUSTRALIA have to say** about our servile position of allowing the US to utilise OUR land, sea and air sovereignty to threaten Australia's largest trading partner? Not a lot it seems, as Abbott clearly allows Washington to make decisions regarding our new status as a primary nuclear target in the event of a US provoked war with China - that is the harsh reality.

Aussies are clearly expendable according to Washington - fall-out radiation from Oz has a long way to go before it reaches US shores! What a thorough and obvious COWARDLY display our Canberra politicians exhibit to the WORLD! Decisions regarding our national security should be made in Australia's best interests by AUSTRALIANS, not war mongering, self-interested, Americans, Mr Tony 'knee pads' Abbott.

The fact that both major (corporate owned) parties have allowed Oz to become a primary nuclear target in the event of a US provoked war (you can back that in) seems not to concern our clearly spineless, puppet federal politicians, as they may be hoping that the US would ferry them to America prior to any likely nuclear strike, but don't be so sure imbeciles, the US has proven, time and time again, that it couldn't give a fuck about anyone but itself.

'Good work,' Abbott, and Gillard for signing over our former neutrality to one of puppet, proxy aggressor in the region.

The death penalty should be immediately re-instituted for TREASON, as the Canberra crew are clearly willing to fully compromise Australia's security, sovereignty and international standing as a

friend to all. I would volunteer to personally shoot the bastards myself after appropriate legal proceedings. Aussies should realise that today's ICBMs have multiple war heads and that a launch would necessarily include ALL capital cities - for fuck's sake, Canberra!

Furthermore, if our largest trading partner, China, takes offence - and why shouldn't it? -- at Australia's servility in allowing America to use our sovereignty to prepare and launch attacks against it, then it may just deliver an economic lesson/warning and completely trash the now fragile national economy, again the result of corporate-serving, incompetent lackeys in Canberra allowing the largest corporate earners (combined trillions per annum) to avoid their tax responsibilities for DECADES!

So Mr Abbott, GROW A SPINE and represent AUSTRALIA, you thoroughly despicable and disgraceful knee-walking, grovelling LACKEY - Oz does not wish to be a nuclear target for anyone let alone a known mass murdering pathological nation hell bent on the FANTASY of world domination - impossible, as any sane and informed person knows!
