u have followed me
since my inception
but i have run like a hare
searching every
secret place
to hide

besieged from every side
how was i to know
u meant no harm
and wished only
to soothe my soul
and still my troubled
mind?

u pursued me to redeem me
but in my delusion i ran
clutching ignorance
as a shield

but now i see you
in Light,
heart to love
and love to knowledge

i surrender without reservation --

this entity can
hardly bear
so much
Love
