

The Results of Neoconservative Insanity

One would have to belong to the mass media addicted moron brigade not to have noticed what the ideology of perpetual war, coercion, corruption/bribery and outright invasive resource theft has done for the USA? Isolate it, to put it succinctly, numerous former vassals and unwilling 'allies' signing up to China's AIIB, much to Washington's chagrin, is just one huge example of the World turning its back on criminal State America.

For the world's former leading democracy to now pursue its insane dream of global hegemony via violent and corrupt means is a tragedy beyond description, notwithstanding that a tiny group of neocon Zionists and ultra-conservative wingnuts are responsible for the now impending failure of good ol' USA, which has done everything in its misdirected power over the past few decades to hasten its own demise. And so the future for this unravelling nation is pariah status, a well-earned outcome.

Would it be too much to hope that the mass media lobotomised American public will save the nation before it's too late? A definite yes response to that rhetorical question as I do not belong to the dreamboat fraternity.

Furthermore, rabid neocons that actually believe future generations will sing their praises, continue to wield considerable influence at State levels and maintain, in clear view of ALL the contrary evidence, that they are right on course and are able to win a nuclear war with two opposing superpowers -- a good dose of media tits and arse are urgently required as even the demented American population is beginning to detect the truth behind the tattered mass media/propaganda veil.

Any notion of a 'winner' of a nuclear exchange between three superpowers is somewhere beyond the most generous limit of insane imaginings.

I leave you all to your well-earned fate. But one thing is certain, it's goodbye America while it allows neocon psychopaths to remain at large and influence foreign policy.

I suppose in the lost plot of today's world it would be futile to label mass murdering civilian killers as criminals, give them medals and Nobel prizes instead and sing their praises while waving the flag that now represents police State fascism to the sane world.

No links were necessary for this piece as the obvious only requires sighted eyes to see.

Pariah nation here we come, how dare the world turn its back on US, we'll nuke 'em all!
