

Clear and Present Terrorist Threat

In order to defeat the enemy you must first be aware of the identity of that enemy. In that regard we should all have no doubts as to the identity of the leading terrorist threat the WORLD faces today.

Terrorism is essentially defined as violently forcing other nations, groups or individuals to conform, against their will, to foreign dictates.

In order to achieve compliance terrorists resort to violent intimidation -- the slaughter of innocent civilians and other forms of coercion are by far the clearest indicators of terrorist activity.

So let's now see if we can accurately identify THE MAJOR terrorist threat to the world.

Al-Qaeda is touted by America to be the world's leading terrorist threat. However, according to America's own expert analysts they only number a few thousand worldwide. The number of civilians al-Qaeda has killed -- including the disputed 9/11 attacks -- amount to no more than 10K globally.

Now let's take a GOOD LOOK at the worlds most vociferous terrorist accuser, the USA!

According to an MIT based study, America has murdered over [SIX \(6\) million civilians](#) with its ill-planned invasions, wars and occupations; criminal carpet bombing in the past -- an extreme terrorist measure -- indiscriminately slaughtered huge numbers of civilians throughout SE Asia. Today the first human holocaust of the century -- over 1 million innocents killed -- can be attributed to the illegal Iraq invasion based on PROVEN orchestrated LIES. America is directly and clearly culpable in both instances!

The USA has the largest terrorist force in the world -- the Pentagon -- which has recently been exposed by Bradley Manning and others to be a heinous civilian killing organisation. Pentagon staff refer to innocent civilian Drone deaths as "bug splat," if you wish to understand the mentality behind the mass murdering tactics.

The Lancet and Johns Hopkins studies both estimate and support with credible evidence figures of over 600,000 innocent men, women and CHILDREN killed as a direct result of the illegal -- based on lies -- recent US wars of invasion and occupation. Other credible estimates place the figure of Iraqi civilian deaths at well over one million souls. And that figure does not include the 500,000 Iraqi children that died as a direct result of US (medical) embargoes prior to the ill-planned invasion -- recall PNAC/war planner Paul Wolfowitz's insane statement that Iraqis would welcome foreign

invaders with "bouquets of flowers!"

The USA spends more on its terrorist military than the rest of the world combined and none of its service personnel has ever done serious time for terrorist offences; somehow no matter how grotesque the massacre/crime, Haditha, for example, the culpable never do any serious jail time.

No other group or nation comes close to the USA's record of intimidation, coercion and civilian killing. Today the President of that clearly criminal nation even boasts a secret mafia-style, 'kill list;' more vivid proof of terrorist activity would be difficult to find.

The USA has also embarked on a 'permanent or perpetual war' strategy in order to feed its PROFIT DRIVEN military industrial complex, at great cost in innocent lives and international peace and stability.

If you research the subject for yourself, you will discover more horrific, compromising material, as we have only scratched the surface. All other nations of the world combined cannot match the USA's horrific civilian killing record; America is without doubt the WORLD'S LEADING CRIMINAL, TERRORIST NATION.

A final indictment is the FACT that America victimises and places whistles-blowers and those that expose its crimes on trial -- a more inverted criminal law system you will not find anywhere on this earth.

So the next time you hear spin doctors on Capitol Hill screaming 'terrorist' and pointing the accusative finger at someone else, please hold a mirror up to the face of the accuser.

Two revealing terrorist statements made by senior US politicians, including the president himself, confirm what most people already know: "*You won't see it [the Drone missile] coming.*" And, "*we came, we saw, he died;*" referring to the proxy illegal assassination of Libya's former leader, Col. Gaddafi.

In conclusion we should *never forget* the sociopathic statement of former U.S. Secretary of State, Madeleine Albright -- in reference to the half million innocent Iraqi children that died as a direct result of US embargoes, Albright said it was, "[worth it!](#)" Need more convincing?
