

A Message to Australian Drongos re: Abbott, “The Boats” and “Border Security”

All we hear from Abbott lately is, “the boats, the boats, the boats,” meanderings on stripping citizenship from nationals and the (miniscule) ISIL terrorism ‘threat’ to the nation.

Lying Abbott

What mindless Aussie morons make of this distracting performance, which the mass media dutifully facilitates, one could only wonder?

Before attempting to answer this question on behalf of our pea-brained population, perhaps it would be advisable to take stock of REALITY, which Abbott is averse to as he is a PROVEN duplicitous, pathological LIAR who STOLE the highest office in the land by FRAUD – FACT!

It is NOT “the boats” that pose a threat to Australia it is our porous AIRPORTS and incompetent customs officials that allow would be terrorists to leave and enter the country freely by AIR. ALL the deluded fools that have left Oz to join the ranks of ISIS have done so by AIR, unintentionally assisted by our ‘genius’ customs officials, grossly incompetent AFP and ‘intelligence’ agencies.

Useful idiot, Man Haron Monis, who the AFP, ASIO and state police monitored and then intentionally ignored despite warnings from the public of a possible attack, entered Oz via AIR and then played our system to his advantage – the ‘problem’ is clearly NOT, “the boats,” which is a manufactured ploy to serve political purposes, it clearly is the shameful failure and gross incompetence of our intel agencies, police and customs regarding our POROUS AIR BORDERS – in other words it’s the AIRPORTS not the sea that poses the most immediate threat to national security. And where does that responsibility finally rest, on LYING, DECEITFUL, Abbott, of course, who in typical fashion portrays our police and intel agencies “as the best in the world,” give thinking Australians a break!

Furthermore, Abbott, like all deceitful, pathological liars, is a master at capturing and dominating the debate, especially in parliament; Abbott has intentionally DISTRACTED the people and nose-ringed media from the appalling, unfair policies of his government, which continue to target the vulnerable and grossly disadvantage the people. Not one attempt in policy to retrieve LOST REVENUE from multi-nationals and large TAX AVOIDING CORPORATIONS; the Banks have PARASITICALLY extracted a total of \$12 BILLION in FEES ALONE from Australian citizens! But

Abbott is loath to upset his corporate masters so in typical fashion CONTINUES to deceive and distract the public, for which he displays the utmost contempt. No-one trusts Abbott, not even his own party, so why should you trust a KNOWN LIAR, DECEIVER and duplicitous scumbag?

While Aussie drongos and mindless morons continue to be distracted by falsities and outright LIES they continue to be right royally screwed where it hurts most! Wake up Oz, and force Abbott to address the issues that most effect average citizens or simply place him on trial for fraudulently stealing office. And don't expect any assistance from the other corporate-owned major party. A citizens' class action would finish him regardless of the outcome of the case, are you reading this, 'Getup?'
