

The TRUTH about Abbott's Attacks on the ABC

I should not be required to write this piece but have been forced to due to the shameless COWARDICE of mainstream journos -- from all outlets -- which are ALL aware of the Truth behind Murdoch lackey Abbott's over-the-top attack on the PUBLIC broadcaster.

This picture is worth a million words

It is widely known that the ABC is Murdoch's thorn in the side in Australia, as it is and will continue to be, the most TRUSTED source of UNBIASED real news the country offers citizens, though to my dismay the ABC clearly does not have the SPINE to stand up for itself/Australia and the TRUTH regarding its DUTY to expose scurrilous, deceitful, minority-elite serving, therefore anti-democratic, bought and owned politicians.

For decades Murdoch has been pressuring all his appointed lackey PM's, from both major parties, to dismantle and weaken, by withdrawing funds and other means, the huge reach of the ABC - remember Rudd's 'job application' with Murdoch over lunch in New York, and Gillard's flagging her willingness to serve same by attempting to pass legislation that would have allowed corporate bosses the legal right to spy on the PRIVATE emails and other private digital communications of their employees/workers, she failed, but the elite got the message that another willing lackey was in the offing?

Murdoch is a ruthless, power mongering businessman and the reach (influence) of the ABC has always frustrated Murdoch's ambitions to capture Australian society as he, and his media mogul friends, have done in the USA and UK. Australia's wariness of concentrated media ownership is warranted as we have seen the results in America - the public is led anywhere the CFR directed mass media directs it, including now, possible nuclear war with Russia and China - I say this not to be alarmist but to HIGHLIGHT the importance of a diverse, largely INDEPENDENT media to keep us informed of critical events/facts, not Kim Kardashian's tits.

Murdoch has been pressing his appointed PM's since Howard, to weaken his primary competition in Australia, the ABC, but has failed to date, as he clearly had not refined his methods (emotive wedge politics), however, with Abbott who is a proven successful divisive, wedge politician, he has finally found his boy. Abbott's clearly over-the-top rhetoric regarding the ABC as a "lefty lynch mob," whose

“heads should roll” as according to Abbott it is on the side of terrorists and a “betrayal” of Australia, is UNFOUNDED and totally ABSURD, however, supported by the unrestrained/unregulated ONSLAUGHT of the MIS-informative Murdoch media, lying, divisionist Abbott is making ground, BUT it must end with all mainstream journos exposing Abbott as Murdoch’s errand boy and political lackey, as this site is hamstrung by Google backgrounding, for obvious reasons, we serve the RAW TRUTH without reservation.

Abbott’s ‘war’ on the ABC has little to do with terrorism, which is a pretext, but everything to do with Murdoch consolidating his media power base in Australia by hamstringing his major opponent. In fact, it has been revealed that Murdoch’s wish is that the ABC should be broken up and its various popular assets handed to the private sector, which would facilitate the final demise of the ABC as a major outlet in the service of the Australian public; such an outcome (Murdoch’s wet dream) would of course open the field to Murdoch to ply his nefarious, mis-informative trade – FACT!

Now a note to Barrie Cassidy, host of the ABC Insiders program, if you are unable to deal with a sleazy lawyer like Turnbull clearly not answering direct questions then fuckin' hand the show over to someone that can! What a thoroughly disgraceful effort allowing Turnbull to clearly evade the obvious -- it should also be noted that Malcolm Turnbull once labelled Murdoch a, “demented plutocrat,” a truthful, though career-stalling statement of fact, however, he has now realised that he has no chance of realising his dream without Murdoch’s support so now Turnbull recants and supports known LIAR and FRAUD Tony Abbott, Murdoch’s errand boy in Canberra.

Another note for dumbarse, Mark Scott, who fell head first into Abbott’s, “whose side are you on?” crap – the obvious answer is the ABC is an IMPARTIAL broadcaster that doesn’t takes sides, refer to government constraints – unlike some Canberra politicians that delight in dividing the nation for cynical political gain. It’s not about “sides” it’s about serving T-R-U-T-H to the best of our ability -- have we got it now, Mark?

Now why didn’t ‘you people’ remind and spell it out for the public?? It’s called supporting your story with indisputable background information.

Furthermore, if the ABC is constrained in its reporting by government and the Fairfax group is constrained by Editorial policy then why should Murdoch's UNREGULATED News Corp be allowed to outrageously distort facts and misinform the public? Shift the onus and focus back onto to Abbott, you ABC, and mainstream, gutless dunces!
