

'Regime Change' for America

Most of the world is already aware that the American doctrine of 'regime change' is a highly illegal act under international law whereby a foreign nation -- almost always the US or one of its allied minions, militarily intervenes in another, usually weaker nation, murders its leader and replaces the government with a Washington compliant 'government' and puppet leader.

However, the regime change sword cuts both ways and regime change is entirely possible in the USA without recourse to violence. Regime change in a democracy is an entirely plausible possibility provided the people desire REAL representative democracy, not a lying, DECEITFUL puppet regime that serves minority corporate and banker interests and not the people.

There are various means other than military force, economic war (Greece) for example, regime change could be effected, it's not a game reserved for evil, self-interested powers only. The most accessible means available to the public is of course via the ballot box or direct popular overthrow if voting is not possible - no government is able to withstand a unified determined population that requires REAL change/reform - FACT, refer to history if in doubt!

People today are acutely aware of the role of the corporate mass media in establishing/maintaining puppet governments and selling illegal wars and UNFAIR, harsh domestic policies, I need not elaborate on the concentration of media ownership and the almost uniform presentation of 'packaged news' throughout the western world. To put it plainly western populations are fed a constant stream of mis/disinformation, distortions, DISTRACTIONS, exaggerations and outright LIES, which constitute what is accurately labelled, PROPAGANDA. So nothing of substance will ever be honestly portrayed in the corporate owned, self-serving, western media today, an easily remedied problem however.

The reason a tiny (easily overwhelmed) criminal, psychopathic elite have taken control of the western world and set it on a course to nuclear and climate catastrophe is NOT due to that minority's power, as power is a RELATIONAL process - local populations must first be made subject and compliant via of course, the lying corporate mass media prior to any power exchange occurring. And therein is the solution in a nutshell.

Disconnect from all the lies and misrepresentations of the conservative AND liberal mass media, as both serve the same elite interests, and install representative INDEPENDENTS into government that promise, with clearly outlined REFORM POLICIES, to dismantle the perverse and thoroughly corrupt power apparatuses that exist today, particularly the undiversified, concentrated mass media -- never forget that government is a legislative body and it is a simple matter to pass new helpful laws to remedy most of the problems we face today. ALL bought, clearly non-representative politicians are easily removed via the ballot box and/or POPULAR DEMAND - it really is that simple!

So it becomes a simple matter to withdraw your passive and active support from a tiny group of criminals and psychopaths and all the bought stooges that serve them. Never surrender your personal power passively by doing nothing, or actively by supporting the criminal status quo and the

many CREATED problems we face today could easily be remedied -- though other more critical problems (climate change) will require some effort from a united population that wishes to survive in harmony, peace and a tenable environment.

All that is required is your positive participation -- a prospect that terrifies minority elites.

Nothing has changed today, in fact, the situation is far worse as we face an unnecessary, provoked nuclear conflict between superpowers.
