### We smell a 'Kony!'

O, you poor gullible slob! Any fool that believes that Juliar Gillard's little prepared rant went [viral](#) accidentally or organically is sorely deluded.

***Julia Gillard, unprincipled, lying bitch***

The first thing that springs to mind is the orchestrated FAILED KONY viral campaign; the 'creator' of that little 'wonder' was later arrested for masturbating in public and running [naked](#) in the streets of San Diego making lunatic Satanic remarks -- R-E-M-E-M-B-E-R? The CFR controlled mass media were very quick to duck for cover.

Now think, why would anyone organically support a reviled lying bitch that is universally despised for her treachery, deception, duplicity, and thorough lack of [principles](#)? Do your best CFR, as you have no idea how much Gillard is despised in Australia!

It has recently emerged that Gillard also forced her female political colleagues to go on the offensive with opposition leader Tony Abbott for his very Catholic conservative views about women in general, notwithstanding he shares those views with millions of other Catholics around the world, including Cardinal George Pell.

But what really sinks the CFR orchestrated propaganda ship is Gillard VOTING in parliament for male homosexual former speaker of the house, Peter Slipper, who originally made the most demeaning, derogatory, sick remarks about female genitalia which sparked the entire incident -- YES, GILLARD ACCUSES OPPOSITION LEADER, Tony Abbott of SEXISM AND MISOGYNY WHILE VOTING FOR THE SICK FAGGOT FIEND THAT MADE the MOST FOUL, DEMEANING TO WOMEN, REMARKS ON RECORD -- WE call that H-Y-P-O-C-R-I-S-Y in AUSTRALIA, what do you poor lobotomised, GULLIBLE AMERICAN slob call it over there?

But we are really addressing the CFR, or rather challenging those creeps to do their media/propaganda best! Gillard, whose credibility in Oz is in the minuses, is being pushed by the CFR and their propaganda machine, but alas, the failure of the KONY campaign is too fresh in people's minds for it to succeed or for anyone to accept the Gillard viral CON at face value.

If you American CFR clowns knew how much this UNPRINCIPLED, LYING bitch is despised in

Australia you wouldn't even try, but do your damndest anyway -- she is a KNOWN quantity over here!
