In possibly the most disconnected of Abbott's statements he took aim at true blue Australians that are fully justified in demonstrating against police state tactics. Disconnected dunce Abbott actually said people should be "[ashamed](#)" of protecting Australia's freedoms and unique culture. Well, you've heard it from the horse's mouth and it becomes obvious where Abbott stands, clearly against Australian culture.

Tony Abbott, corporate lackey, traitor and dunce

Australia must rid itself of people like Abbott and his band of incompetent conservatives before they do more damage to our nation. It couldn't be clearer!
