It's the 14th anniversary of perhaps the most inept and transparent false flag operation in modern history, the only people that believe the US government story are those that have not taken the trouble to investigate and research the matter. Regardless of whatever approach is taken it soon becomes apparent that the entire official story is as holey as Swiss cheese and I'm not going to waste space listing the thousands of verifiable flaws in the government fiction; the remaining believers (mental sloths) that are interested are able to educate themselves from the wealth of credible information available in the public domain.

Tony Abbott, thoroughly inept, dangerous dunce

As the tattered fiction of the 9/11 ineptly orchestrated pretext to wage war on anyone accused of 'terrorism' anywhere, anytime, in the world crumbles under the pressure exerted by reality and reason, an imminent danger looms for the real perpetrators or the enemy within. And they know it!

Elite installed governments cannot save this minority group of heinous criminals forever, as is clearly apparent when assessing the performance of installed puppet western leaders that are forced to pursue elite dictated agendas, which of course are diametrically opposed to the best interests of the majority - how the elite hoped that this absurd situation was sustainable is indicative of the disconnect that all self-serving elites have displayed throughout history. What I am indirectly alluding to is that the political puppets that serve elites today are actually 'blowing' the situation wide open, and elites are finding it more and more difficult to install 'competent,' traitorous leaders - Murdoch installed Tony Abbott of Australia is perhaps the most incompetent of all today's puppet leaders, his blunders and gaffes and those of his ministers spell exposure for Washington and those that control the White House; however, as elites are insular by nature it takes time for reality to sink in and take hold and time is running out as is the safety gap.

The nature of the horrific 9/11 crime perpetrated against the people is so gross and heinous the resultant furore would clearly overwhelm any attempt at containment by the police state and military, which are averse to waging war on domestic populations or their own families.

The population would simply erupt spontaneously if the truth was ever leaked or revealed by credible insiders, a prospect that increases daily due to the laughable, gross ineptitudes of puppet

governments throughout the western world. And therein lies the end of not only the elites that install puppet governments but the politicians that serve them – hell’s fury would pale in comparison to the rage expressed by an informed and justifiably vengeful public.

Remember this on that fateful day, which is approaching sooner than most paid analysts think – I would add that the unforeseen popularity of Jeremy Corbyn is indicative of a fed up population, Corbyn simply, and genuinely expresses the wishes and hopes of the people and is dedicated to their best interests, a refreshing change from the traitorous, backstabbing dunderheads installed by insular elites that have lost the plot. Indeed, a certain minority human genus now faces imminent extinction.
