The Truth

Armed only with my keyboard I take the battle to the enemy in Washington, Wall St. and the City of London -- choke on it!

A prevailing myth has lost all meaning -- victors no longer write history -- the internet provides a refuge for the truth and millions of contributors ensure that truth will no longer be lost or corrupted.

Another popular myth teeters precariously on the edge of discovery -- 9/11 was an inside job not an external attack, though Mossad's assistance is acknowledged -- remember the USS Liberty!

Minority elites have never been stronger, a myth -- FACT, they could be hanged any day now.

Read these simple lines/facts and lament, you mass murdering, criminal bastards! The breath you feel on your stinking necks, is mine -- a life dedicated to JUSTICE, LAW and ORDER.
