

## The Lying Machine

Of course I refer to the mass media, though it hardly requires pointing out. Today as in pre-WWII Nazi Germany the masses have been duped with outright LIES, omissions of facts and flagrant propaganda but to what end?

Well, exactly the same INSANE dream/agenda shared by ALL megalomaniacs and psychopaths, domination of the entire world and imposing one's will and perverse ideology onto others by force.

Recent events in Syria have exposed the ENTIRE sordid plan of the psychopaths that have hijacked our democracies. And so, should WE allow these obvious criminal, mass murdering lunatics to plunge the WORLD into nuclear war or should we restore our REPRESENTATIVE DEMOCRACIES and hold known lying criminals, which include huge financial interests, to account?

Today governments world-wide and their state institutions are lost to us, plain to see, all have been commandeered by self-serving nefarious criminal/commercial forces, justice has become a meaningless word and peace is now an hollow word used only in the context of war.

Selfish, self-obsessed psychopaths have no empathy or sympathy for others as is readily appreciated, so why do we, as the German masses before us demonstrated, tolerate criminal rulers? Again for exactly the same reasons the civilised Germans of the 30's not only tolerated Hitler but elevated him and his gang of psychopaths to demi-God status. The LYING mass media, which Hitler's minister of propaganda honed to a fine art, DECEIVED the German masses, as today's CFR controlled western mass media deceives the western world - and now think of the horrendous price the German people paid for their misjudgement, ignorance and complacency in the face of horrendous crimes against innocent scapegoats.

However, one important difference which separates today from Nazi Germany is the availability of information; anyone that is foolish enough to view or be influenced by the mainstream media deserves to be duped, distracted and lost to slavery and fear. We have an edge today the Truth is easily accessed via digital means, though it is swamped in mainstream digital propaganda and distractions from today's lying machine; nevertheless, the discerning mind is easily able to separate the chaff from the grain today.

And so we are left with not only the responsibility for our own lives but the responsibility of the future course of our respective nations -- WE the PEOPLE are six billion strong, and THEY the panic-stricken criminal psychopaths are very few and the puppets that serve them are fewer still.

Today to allow the clearly sick few to hold sway over the many is suicide as the past fifteen years of chaos and needless bloodshed demonstrates. Only the many are able to prosecute for PEACE. Our destinies in REALITY are in our own hands today, as no social force is able to withstand the indomitable will of the PEOPLE.

Know today's privately owned mass media for what it is, a LYING MACHINE owned and created to serve the interests of the very few.

REAL change is only a personal decision away; make your choice, freedom and peace or the endless escalating wars of the criminals that temporarily hold sway over us and OUR WORLD. The fate of the world is in OUR hands -- that is the simple REALITY.
