

Do YOU really think it odd ...?

Some people today are dismayed and shocked that the USA has become an ultra-right-wing totalitarian State when it was entirely predictable. It was clear more than half a century earlier that a highly placed nefarious group in the upper echelons of power were complicit in the JFK assassination. The video below taken from the history channel offers very strong evidence indeed that the secret service was complicit in JFK's murder.

Secret service agent ordered to stand down!

If no consequences or investigation of the appalling failures of the secret service occurred at the time, notwithstanding the monumental breaches of security protocols (50 years ago) are YOU surprised TODAY that the criminal Executive has become a power unto itself flouting due process, civil law and the values enshrined in the founding documents of the REPUBLIC? A simple 2+2 deduction is all that is required to determine that American democracy has been hijacked and (secret) special interests/cabals have taken command of the USA.

Recent developments; extra-judicial presidential kill lists, indefinite detention without trial or charge on suspicion, rendition, torture, citizen surveillance and illegal invasive warfare conducted with war crimes (Drone) weaponry are simply extensions/DEVELOPMENTS since the exact same interests assassinated JFK -- who was known to strenuously oppose the ultra-conservative secret cabals entrenched in critical places of State power.

Jack and Bobby Kennedy paid the ultimate price for not appreciating the depths to which these nefarious criminals would sink. Today, it is the population that is paying the ultimate price for their failure to demand justice and restore the Republic to the ideals/principles enshrined in its founding documents -- documents that cabalist, George W Bush, called 'pieces of paper!!'

If the 9/11 conspiracy surprised you, then you clearly have a postage stamp attention span or are memory deficient -- either that or you're a moron that deserves everything you get from the criminals that have **hijacked the nation from under your noses** and turned it into a totalitarian State.

All the evidence you need regarding another botched inside job -- 9/11 -- is available on the INTERNET. A little research today pays huge dividends. Failure to educate yourselves and take

action to restore the REPUBLIC would certainly condemn it and YOU to a horrid fate.

Some people can't see the nose on their stupid face and a very high price is exacted for ignorance and blindness today.

You can kiss your Freedoms and Liberties goodbye, America, and you can kiss my arse while you're at it, you knee-walking, cowering slaves!
