

## The 'Terror' News Cycle

by jess Friday, Jan 15 2016, 12:49am

international / prose / post

Today after 15 years of media saturation by the [CFR controlled mass media](#), 'terror' has become naturalised, the tailored daily 'news' is saturated with terror attacks and couches every crime against the people as terror attacks, when in fact they are simply crimes committed by gullible, demented murderers with jelly for brains.

The mass media in fact has become a terror inducing terrorist entity designed to instil fear and coerce the population and allow for the easy management (elimination) of LEGITIMATE, aware dissenters or opponents of the criminal ruling elite that created terror groups and the 'war on terror' to replace the bogeyman of communism.

After numerous revisions of terrorist laws in the western world - not coincidentally over the past 15 years, today, anyone could be labelled a terrorist and dealt with severely without the usual outrage of society if someone is unfairly victimised by the criminal mass murdering STATE, you see, the US State is the world's leading civilian killing entity by a country mile and THEREFORE the world's leading terrorist organisation; however, it focuses public attention on created terrorist groups; only a few aware individuals and specialists are able to see the reality behind the contrived picture presented to the public on a daily basis.

Now consider the FACT that barely a mention of terrorism ever made the news prior to the declaration of the 'war on terror' by puppet president Bush - since then terror and terrorism never misses the terror news cycle and if you imagine creating a threat and then utilising that created threat is not an intentional act for facilitating crowd control and all manner of other crimes, you would be sorely deluded or ignorant to the extreme. In fact, to discover the truth today requires considerable effort on the part of citizens, which laziness is depended on by nefarious ruling elites to maintain the illusion.

It is known that the public are only media CONSUMERS. I would refer to a Slovenian slogan during its NATO/US inspired independence war, "one transmitter, a million receivers," which requires no explanation on how the media operates.

The reason this 'new' (terror) threat is utilised today is exactly the same as the exaggerated communist threat of the 20th century i.e., to deprive citizens of rights and liberties, induce fear and deal with any dissenter or opposing voices to the elite designed and implemented status quo and of course, to forever ensure the safety of the world's most heinous criminals, which were suits not balaclavas. This tiny unrepresentative minority of killers and thieves that today control all western societies via their concentrated privately owned mass media are the REAL threat (killers) easily verified if one takes the trouble to trace the flow of money.

You see, these nefarious criminal elites, which do not give a damn about anything other than their own interests, are aware that the media is their strongest weapon, not missiles or bombs, they must first capture the public consciousness before they are able to pursue their mass murdering resource stealing, socially oppressing imperial agenda.

However, never forget your mind is your own, use it wisely and often and never passively CONSUME anything tailored and presented by the elite owned mass media!
