Shadow Play

by gemma *Saturday, Jan 16 2016, 7:12am* international / poetry / post

> shadow puppets play tonight moving in two dimensions across the screen

puppets outlined by the light source behind them skilfully manoeuvred by the puppeteers

playing out age old themes that haven't changed since the dawn of mankind

tonight one puppet moves away from the screen toward the light and becomes a three dimensional Being ruining the play
