There is only one reason Yugoslavia, Iraq, Afghanistan, Libya and numerous other militarily weaker nations have been ruined by the West today. Russia, and to a lesser extent China, fed those nations to US/NATO war dogs without lifting a finger to support traditional allies.

The two means employed by western criminal forces are direct military intervention based on (proven) lies or some other-tissue thin pretext and/or utilising extremist terrorist groups - KLA in the first instance -- to destabilise legitimate governments (Syria), all of which governments held their nations together in relative stability and prosperity prior to US/NATO's 'criminal,' by that I mean brazenly flouting international law and conventions, interventions.

Once Russia failed to act to save traditional blood (Slav) ally, Yugoslavia, Washington became intoxicated, it immediately began to install offensive missile systems in compliant (corrupted) Eastern European nations bordering Russia using the absurd pretext they were defensive system to mitigate an IRANIAN attack, give me a break! Meanwhile, corrupt Putin watched while US destabilised nations descended into mayhem/anarchy and millions of innocent lives were lost and tens of millions more innocents displaced -- all the while maintaining that the Americans were "partners." Give me another break!

We predicted some years back that of course the US would eventually confront Russia and China as those two spineless and corrupt nations FAILED to nip the problem (WWIII) in the bud, so NOW that bud has become a tree of nuclear war, which the sleeping world faces today.

And so it has come to pass, though it was plain to see using Orwell's consequential deductive reasoning. In fact one writer was so incensed by Russia's betrayal of Yugoslavia and Libya, that he predicted that Putin would "choke" on his gutless failure to act, in the future, as indeed he is doing today - do not be deceived by Putin's show of strength in Syria, his military has no depth, though it has clearly made great strides to catch up to America and is easily capable of reducing western Europe and America to ashes, but it's like a football match with one side having no substitutes, while the other has depth and is able to freshen its offense, so limited war must eventually escalate to a nuclear conflict, simple.

Today Western criminal forces are clearly mobilising for a military offensive against Russia and to a lesser degree China for daring to interfere (finally) with America's insane dream of global hegemony. It is as plain as day, notwithstanding the media-entranced masses are unable to see the noses on their distracted faces.

The US has sent its compliant Gulf State and NATO (Turkey) allies on a very dangerous errand to illegally invade Syria and Iraq in the hope that it could salvage what's left of its proxy fighting terrorist groups deployed to destabilise and overthrow existing governments (same old tactical story) and redraw maps of the Middle East and appropriate resource rich oil regions. Of course this tactic directly confronts Russia, which has already described any such illegal intervention by the Saudis and Turkey as a trigger for escalated conflict and probable world war.

The amazing thing, for those with eyes to see, is that the masses are none the wiser; now consider how the CFR controlled western media, inverts reality and accuses Russia of aggression, WHAT! Now here's the REALITY, the US and its allies have been at permanent war since the Balkan intervention and have ruined numerous nations and created the worst refugee crisis since WWII, yet in typical Orwellian fashion the USA accuses Russia of "aggression" to justify its next extremely dangerous military moves. The simple reality is that Russia has not invaded any nation in recent history, the current support of the legitimate Syrian government - until the Syrian people, not foreign proxy fighters -- decide otherwise, is all according to international law and convention UNLIKE the criminal intervention of the US and its allies, plain to see, though the masses are incapable of seeing anything outside the disinformation that SPEWS CONSTANTLY from the western propaganda apparatus known as the mass media.

The situation in the Middle East is now a tinder box ready to explode and plunge the entire world into chaos and it's all due to the fact that the global masses have lost the plot - the FACT remains that a tiny group of corrupt wealthy criminals are behind all the chaos and mayhem that now threatens civilised humanity and while this lunatic group is left to freely operate the future is easily read/assured, WAR and ruin, which suits the avaricious, psychopathic criminals, as they have no solution for the failed global economy and huge unsustainable global population, but war!

Now choke on it, you mindless, cowardly morons and I hope you enjoy YOUR future, you see, the only hope Russia and China have if they wish to survive, is a pre-emptive nuclear strike on America and western Europe! And that is how it will be.
