MahaKali

kiss my wounded palms and release a sea of flowing water, a shoreless lake is a mighty, moving force

intone my name and arouse a fire serpent

inspire
until the sacred wind
becomes
a howling tempest

suckle and gently draw violet lotuses from the aperture of my magic flute wet ur sweet lips
on my mouth
ease ur body
onto mine
allow our currents
to search each others'
secret places
and illuminate
the darkest
crannies
and deepest spaces

become my Goddess and i shall be ur God

together we are able to fix the sun and moon in the sky forever
