Make no mistake, the US/NATO criminal alliance is hell bent on removing Assad and redrawing the maps of the Middle East. Retired general [Wesley Clark](#) spelled it out, Syria and then Iran, and nothing will deter the US from attempting to achieve its nefarious ambition, so all the, 'this way and that' bulldust of commentators, propagandists and others amounts to hot air. The US has an agenda it will never depart from and the world has only two choices to allow the criminal forces that constitute the shadow government to succeed or to oppose them and place them on trial for their many recorded crimes against humanity, you see, it's all about profit, slavery and appropriating diminishing resources.

Hillary 'elite-serving bitch' Clinton

Formerly it was known as the [Bernard Lewis plan](#) to carve up the Middle East, it has now been honed down strategically and refined and there is no way the US and its criminal allies will alter course. So get over it, dummies!

The spanner in the works is corrupt Putin, once a pawn of the elite but now forced to act in Russia's interests. Other forces in Russia could see the obvious an eventual attack on Russia and so Putin was FORCED to act, make no mistake. Remember how he allowed Libya to fall to these same criminal interests, notwithstanding he could also do much to assist Serbia, where it all started, and restore Kosovo to its legal owner but not that little corrupt shit, Putin. He could have acted decades past when NATO/US were installing offensive missile systems on Russia's borders but he watched and took the cash instead, well now he has no choice fight or die at the hands of patriotic Russians particularly the military.

So we have a cat and mouse game in Syria. Clearly fake Geneva 'peace' talks while American proxy extremists are excluded and continue fighting and shelling civilians is ABSURD, the entire thinking world is now aware who is at the controls of Jihadi fighters -- The USA via its vassal allies Saudi Arabia, Turkey, Qatar, Jordan and Israel. There is overwhelming evidence in the PUBLIC DOMAIN of this FACT. So why is the world playing ignorant or pretend, the source of the PROBLEM for the entire WORLD is WASHINGTON pure and simple, and it's about time the REAL (social) war became known.

Have you considered for a one minute how governments continue to legislate and erode our rights while now supporting al-Qaeda in Syria, once the evil of the terrorist world, don't make me laugh or spit! Our rights to privacy have all but vanished WHILE western governments become MORE SECRETIVE, seem strange to you? Governments are fuckin' accountable to the people and the people are too busy taking selfies to realise they have a star-spangled dick up their stupid arses.

The point I am making is this war is not only being fought in Syria but around the globe in western nations, it is a war of total control, social oppression and containment of populations while at the same time appropriating diminishing resources by any illegal means to feed the voracious corporate-banker elites that control our governments, can't you see/smell Clinton's vile, stinking cunt in your face? She is the next selectee president as Obama was before her and Bush before him -- get over it SLAVES you are being screwed. The crapulous election process is a CHARADE a form of entertainment for the lobotomised public, she is a certainty because she serves the elite and no-one or anything else.

If you want peace and liberty then DEMAND TRANSPARENCY from elected governments and prevent them from eliminating what little is left of our rights and former freedoms especially the RIGHT to PRIVACY. Secretive criminal governments that flout the law daily and make demands to intrude on OUR privacy are a pathetic joke, you should hear the stooges masquerading as politicians in Oz, they always resort to, 'I'm not about to divulge or talk about operational matters' [simply because we're hiding our criminal and incompetent activities from the public.] Meanwhile more oppressive social laws are legislated -- that's the long and short of it and its far worse in the USA, UK and Europe.

You want PEACE and to stop the illegal wars in Syria and other parts of the world waged by the same evil interests, then stop them at home first, we are ALL under siege today. Restore you rights and liberties and oppose ANY force for whatever fabricated reason would take them away. Democratically elected governments ANSWER TO THE PEOPLE WE DO NOT ANSWER TO THEM or surrender the rights our fathers fought and died for.

Who is watching the criminal watchers who are also stealing our rights, especially the right to privacy? Who allowed governments to become less transparent and less accountable, WE DID, BUT WE CAN ALSO RESTORE DEMOCRACY and FREEDOM; resist these evil forces, we are the overwhelming MAJORITY, do not allow yourself to be alienated with techno-gadgets while our police and elite-serving governments have a field day doing whatever they want, legal or illegal, and becoming more secretive by the day -- what a tragic joke our world has become!

To put it in terms banjo-playing American morons could understand, "what's good for the goose is good for the gander" -- got it now? Demand that governments are accountable and serve the people DIRECTLY, not the elite that place them in office, do it via the democratic process or by force, restore REAL **REPRESENTATIVE** DEMOCRACY, justice and sanity to our world, which WE have neglected for far too long.

The only force that desires (perpetual) war is the evil criminal MINORITY that profit from it -- FIGHT THEM and jail them for their innumerable crimes, they are scared shitless of us and articles like this from the heart and guts spelling it out -- fuck 'em -- elites must pay for their many crimes as too the bought treasonous politicians that serve them. They are as obvious to spot as dog's balls, Hi Hillary, I can smell you a mile away, go to hell from whence you sprang, you stinking, murdering, lying CFR-serving bitch!
