The first thing to consider is that this astonishing compliance clearly changes the status of Australia from a peaceful, relatively neutral nation into a PRIMARY NUCLEAR TARGET. And considering that modern ICBMs contain up to 14 nuclear warheads, it's goodbye ALL capital cities while leaving our precious resources free for the taking after the American made holocaust.

B1 bomber - flying death

Now, the other important reality to consider is that Australia was/is NOT under any threat from China, our greatest potential enemy remains Indonesia, which has no nuclear capability so any decision to play lackey to the war mongering yanks, which perceive China as a threat to THEIR dreams of world domination, is INSANE!

How any competent, independent, sovereign government could allow itself to be compromised to the end extent for the sake of another FOREIGN nation's lunatic dreams of global hegemony, is beyond reason and comprehension.

Aussies noted when the yanks first attempted this outrageous compromise of OUR national security interests, even lackey Abbott denounced the plans as rumour, he was acutely aware of a justifiable public backlash; well, the same applies to any government foolish enough to entertain the idea of making Australia a primary nuclear target in the event of an American provoked war with China. And if we look at American 'foreign policy' today, which reduces to military intervention under various guises, then allowing the insane yanks to deploy their long range nuclear bombers in Oz would clearly constitute an act of treason, as nothing could be more compromising to our national security than becoming a primary nuclear target when there is absolutely no need for this knee-walking obsequious gesture.

Not only is Turnbull a do-nothing for the people leader, he is clearly a spineless lackey willing to compromise the entire nation to remain leader of his spineless party. Well, the polls may have something to say about that, have you got the message, you disgusting, knee-walking Liberals, the lot of you?

Bring on an early federal election, PLEASE!

Turnbull, useless incompetent leader and Washington pawn
