

## Dissent

by *anna Tuesday, Nov 6 2012, 9:42am*

international / poetry / post

there is an indescribable  
satisfaction  
in dissent;  
opposing the most powerful  
forces that exist and  
observing them react  
in real fear  
to the small independent voices  
saying NO, that's a LIE,  
NO,  
you are mass murderers  
NOT saviours or protectors.

watching reactions  
to dissenting discourse  
with calculated attention,  
watching agencies and information  
managers (Google) monitor  
your every word and attempt to  
suppress your message  
spells Victory for dissenters --  
watching the most powerful  
Corporations and Banks  
squirm and writhe in unease  
and wince with every pointed dart of truth,  
and every arrow of justice  
launched at their murdering  
black hearts.

they have no idea  
that every effort they make  
to suppress, oppress and misrepresent  
only increases the volume  
-- in both senses of the word --  
of the dissenting voice.

the plutocrats believe their counter-measures  
are effective when in fact the opposite is true  
without their futile efforts to suppress  
and smother we would have given up  
decades past.

with every advance we make  
they grow weaker,  
every new awakened person  
spells doom for frauds  
and liars

we have forced their hand  
on numerous occasions,  
with every new suicidal act or law  
they implement  
the tide of opinion alters in our favour  
and opposition against them  
increases

it is with the utmost vigour and satisfaction  
we deliver our healing  
and balancing message,  
every corporate lie countered,  
every media misrepresentation  
exposed, all their manufactured 'realities'  
forced to defer to Truth  
and simple verifiable facts,  
which we happily provide.

the purveyors of death and destruction  
move closer to retribution/  
JUSTICE as each day passes

their feeble attempts to stem  
the growing tide of dissent  
only increases the forces of opposition

every new word and dissenting act  
spells victory for Truth and Justice --  
we are well pleased with our efforts  
and encouraged by the results;  
there is no silencing  
the global dissenting voice  
or stopping the growing opposition  
to the criminal plutocrats  
and mass murderers  
of our time.
