Extradition to Sweden sought pending further extradition to Tasmania to face War Crimes Charges

War Criminal General David Petraeus, who planned and executed civilian massacres in Iraq and Afghanistan, now has something in common with Julian Assange, an indiscreet dick. The 'unsporting' FBI busted Petraeus executing another intervention into a foreign vagina, which highlights the cost of foreign interventions everywhere.

David Petraeus, ignominious end to career

Not to make light of this mass murdering criminal and the ugly dog he was fucking, people everywhere should realise that the US hierarchy is crammed with deviants, sexual aberrants -- Obama is a known homosexual -- psychopaths and others in the executive that attend private parties at places like 'Bohemian Grove,' where more official deviants parade dressed only in their underpants in the company of young boys and girls! Research it and educate yourselves.

The current wars and associated civilian massacres this group of psychopaths are responsible for are simply a means of increasing wealth for the few via the usual noble methods of murder and theft.

It is not a formal resignation the people seek but a thorough purging of all the filth in high places.
